## 5,000 CUBIC YARDS OF WILD HORSE MANURE AVAILABLE FREE TO THE PUBLIC

**HINES, Oregon** – Free, quality fertilizer is once again available from Oregon’s Wild Horse Corral Facility in Hines. Approximately 5,000 cubic yards of wild horse manure are piled and ready for loading beginning Tuesday, July 7 through the end of the month.

There is no set limit on the amount of wild horse manure that be obtained. Commercial haulers are welcomed and encouraged and must be able to load the material with personal equipment. If you are interested in picking up the entire available amount, please contact Tom Duke at the Corral Facility at (541) 589-1011 to schedule a commitment. Weekend appointments may be available.

The manure is available on a first-come, first-serve basis.

For further information contact the Burns District Office at (541) 573-4400.

### About the BLM:

The BLM manages more land – 256 million acres – than any other Federal agency. This land, known as the National System of Public Lands, is primarily located in 12 Western states, including Alaska. The Bureau, with a budget of about \$1 billion, also administers 700 million acres of sub-surface mineral estate throughout the nation. The BLM’s multiple-use mission is to sustain the health and productivity of the public lands for the use and enjoyment of present and future generations. The Bureau accomplishes this by managing such activities as outdoor recreation, livestock grazing, mineral development, and energy production, and by conserving natural, historical, cultural, and other resources on public lands.
