

CMPA ROAD ANALYSIS

Map Referenced Road No.: _____ OR-4 _____ Road Name:

Township, Range and Section: T34S, R32.5E, Sections 2 and 3; T33S, R32.5E, Sections 34 and 35

- 1) Please describe the general setting of the area including precipitation and vegetation and compare this data to an average precipitation year. Provide any other pertinent information.

The road is somewhat obvious on NAIP.

- 2) Is a right-of-way or easement associated with the road? Y/N _____ N _____

a) If yes, what is the right-of-way or easement serial number: _____

- 3) What is the primary purpose of the road?

a) Does it facilitate travel, recreation (e.g. hunting, horseback riding, camp site), or other access? Explain(type)

This road connects two segments of a way and facilitates access to dispersed camping and a deer hunting area.

b) Does it provide access to a communication site, power line, or other ROW permits? Explain

No

c) Does it provide access to a range improvement or pasture? Explain

No

d) Does it provide reasonable access to private land or private interests in lands? Explain

This road provides an alternate road to private lands.

e) Does it provide access to existing weed sites or suspected areas and trend or other monitoring locations? Explain

This road provides access for monitoring the allotment.

- 4) Is the road needed for safe access, e.g. firefighting and rescue personnel, and safety of all users (e.g. public, grazing permittees, landowners, ROW holders, BLM staff)? Explain

No

- 5) Could the road be used as a successful fire break if maintained? Explain

No

July 13, 2011

6) Is the road needed to implement an on-going or reasonably foreseeable future project? Explain

This road is needed to implement the North Steens Ecosystem Restoration Project to provide access for planting of bitterbrush.

7) Does the road provide an additional evacuation road in case of an emergency (e.g. wildfire or injuries)? Explain

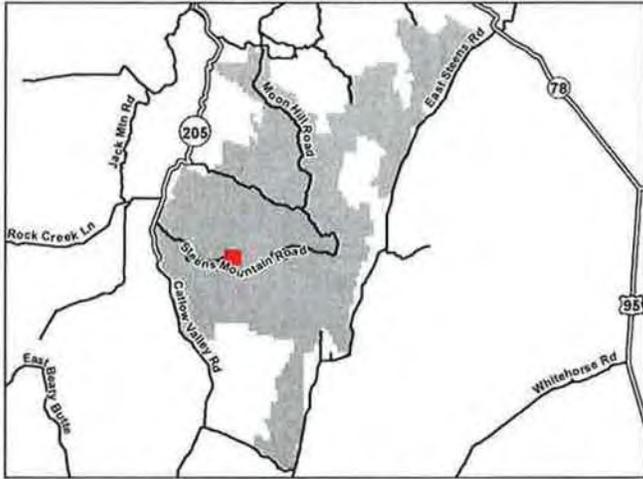

No

Prepared by (print name/signature): Rhonda Karges 

Date: 12/16/14

It was recommended this road remain open to the general public as it facilitates access for dispersed recreation and hunting opportunities, provides an alternate road to private lands, allows for access to implement the North Steens Project, and monitoring. The road is also obvious on NAIP as an existing feature on the landscape. The road will be analyzed in the CRP under Sub-Alternative B as open to the public.
