

COOS BAY WAGON ROAD PILOT PROJECT

SEPTEMBER 2011

The Coos Bay Wagon Road (CBWR) pilot project is a cooperative effort between the Coquille Indian Tribe and the Coos Bay District of the Bureau of Land Management. The objective of the project is to apply the ecological principles suggested by Professors Norm Johnson and Jerry Franklin in designing a variable retention regeneration harvest in the moist forests of the Oregon Coast Range.

Project Details

Harvest Areas	Regeneration Harvest	120.58 Acres
	Bear Grass Density Management	4.79
	Marbled Murrelet Density Management	9.41
Aggregates	Red Tree Vole Aggregates	25.46
	Pilot Aggregates	5.22
Reserves	Riparian Reserves	165.40
Other Designations	Marbled Murrelet Occupied Habitat	102.16
	Marbled Murrelet Habitat	73.42
	Marbled Murrelet Buffer	74.80
	Red Tree Vole Buffer	1.76
	Older Stand with Residuals	5.65
	Deferred for Later Harvest	49.56
	Not Practicable	8.53
	Younger Stand	6.51
	TPCC Fragile	1.13
Total		654.38

Road Work

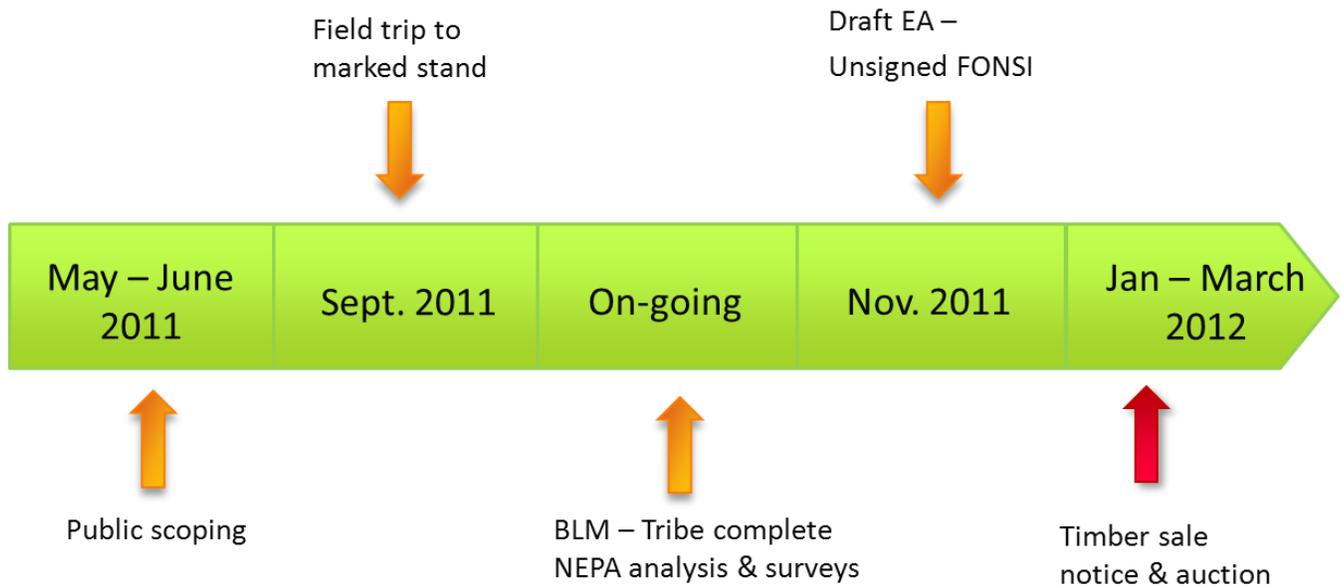

New Construction	1.1 Miles
Renovation	2.9 Miles
Improvement	1.2 Miles
Decommissioning	1.2 Miles

Marking Guide

	Reserve tree
	Harvest tree
	Previous mark erased
