Coos Bay District  
Categorical Exclusion Review (CX)**

**DOI-BLM-OR-C000-2011-0005-CX**

Date: 10/20/2010

**A. Background**

**Project:** Fiscal Year 2011 Removal of Hazard Trees and Roadway Salvage

**Location:** Established recreation sites, areas, and trails and various locations adjacent to roads on BLM managed lands throughout the Coos Bay District.

**Project Description:**

This project consists of the removal and disposal of hazard trees from established recreation sites, areas, or trails. Trees within recreation sites would be disposed in a variety of ways; these include being sold to contractors, utilized as firewood. Trees may remain on-site after being felled.

In addition, trees identified as hazards adjacent to roadways, are blocking roads, or interfere with normal road use would be removed in accordance with Coos Bay Instruction Memorandum OR120-2007-03. Sale of trees would be limited to less than 50 Mbf per occurrence.

The District utilizes the definitions put forth in *Long-Range Planning for Developed Sites in the Pacific Northwest: The Context of Hazard Tree Management* (USDA FS, PNW Region, 1992) and the *Field Guide for Danger Tree Identification and Response* (USDA FS, PNW 2008) to determine which tree constitutes a safety hazard.

Specific design criteria includes noxious weed control/treatment under the guidelines of the District Noxious Weed EA (EA OR120-97-11). Applicable Standard operating Procedures to prevent weed spread would be implemented; refer to District weed Prevention Schedule.

Procedures to prevent the spread of noxious weeds would be implemented in accordance with Coos Bay District Weed Prevention Schedule (ORC000-IM-2010-06). Additional weed prevention Standard Operating Procedures are found in the *Vegetation Treatments Using Herbicides on BLM Lands in Oregon EIS* and its *Record of Decision*.

**B. Land Use Plan Conformance Review:** This project is tiered to and in conformance with the *Coos Bay District Resource Management Plan/Final Environmental Impact Statement* (USDI BLM 1994) and its *Record of Decision* (ROD/RMP), as supplemented and amended. The Coos Bay ROD/RMP is supported by and consistent with the *Final Supplemental Environmental Impact Statement (FSEIS) on Management of Habitat for Late Successional and Old Growth Forest Related Species Within the Range of the Northern Spotted Owl (Northwest Forest Plan [NFP])* (USDA/USDI 1994) and its *Record of Decision* (USDA/USDI 1994a).

The proposed action is in conformance with the applicable resource management plan because it is specifically provided for in the following resource management plan decision(s):

Manage timber within developed or proposed recreation sites/areas for the purpose of removing hazard trees.... (RMP page 49).

Provide opportunities for firewood cutting along roadsides where trees are obstructing sight distance, are a safety hazard, or are creating road maintenance problems (RMP page 55).

**C: Compliance with NEPA:**

The Proposed Action is categorically excluded from further documentation under the National Environmental Policy Act (NEPA) in accordance with 516 DM 11 §11.9 C (2):

Sale and removal of individual trees or small groups of trees which are dead, diseased, injured, or which constitute a safety hazard, and where access for the removal requires no more than maintenance to existing roads.

This categorical exclusion is appropriate in this situation because there are no extraordinary circumstances potentially having effects that may significantly affect the environment. The proposed action has been reviewed and none of the extraordinary circumstances described in 516 DM 2 Appendix 2 apply.

A summary of the extraordinary circumstances is listed below. The action must have a significant or a disproportional adverse effect on the listed categories to warrant further analysis and environmental review.

<u>Extraordinary Circumstances</u>	<u>Applies (Yes/No)</u>	<u>Comments<sup>1</sup> and Source<sup>2</sup></u>	<u>Initials</u>	<u>Date</u>
(1) Health & Safety	No	Reviewed by Hazardous Materials Coordinator;	<u>PG</u>	<u>10/19/10</u>
