**Minimum stumpage values were used to compute the appraised price (10% of pond value).

CRUISE INFORMATION - The timber volumes were based on a 3P sample tree volt cruise. With respect to merchantable trees of all conifer species: the average tree is 15.5 inches DBHOB; the average gross merchantable log contains 68 bd. ft.; the total gross volume is approximately 2,967 M bd. ft; and 88% recovery is expected. (Average DF is 16 inches DBHOB; average gross merchantable log DF contains 70 bd. ft.)

Bidders will be restricted to bidding on a unit (MBF) rate of the Douglas-fir volume. All other species will be sold at appraised price per unit (MBF). The minimum bid increment will be \$0.10 per MBF.

LOG EXPORT AND SUBSTITUTION All timber sales shall be subject to the restrictions relating to the export and substitution of unprocessed timber from the United States in accordance with P.L. 94-165 and 43 CFR 5400 and 5420, as amended.

CUTTING AREA – 32 units containing 481 acres are to be partial cut.

CUTTING TIME – Contract duration will be 36 months for cutting and removal of timber.

ACCESS - Access to the sale area is available via existing BLM roads, and Right-of-Way and Road Use Agreement M-2000A with Fruit Growers Supply Co. Among other conditions, this agreement requires completion of an agreement between the Purchaser and Permittee.

ROAD MAINTENANCE - BLM will maintain 38.47 miles of the roads listed in Section 41(C)(3). The Purchaser will be required to pay a maintenance fee of \$3.51 per MBF or a total of \$9,209.11 for the use of these roads as shown in RC-2c. The Purchaser will be required to maintain 2.97 miles of BLM roads.

ROAD CONSTRUCTION - The contract will require the Purchaser to construct 4+89 stations, and to blade and spot rock 297+26 stations of road. Additional information is available in the timber sale prospectus.

SOIL DAMAGE PREVENTION - Pursuant to Section 25 of Form 5450-3, Timber Sale Contract, the Purchaser shall not operate or cause to have operated on the contract area any tractor-type logging equipment when soil moisture content exceeds twenty (20) percent by weight. The Purchaser shall construct waterbars on tractor skid trails, and block main skid trails where they intersect haul roads.

EQUIPMENT REQUIREMENTS - LOGGING: A ground-based machine less than 7½ feet wide, equipped with a winch, integral arch, and at least a 75 foot skidding line. A skyline yarder capable of one-end suspension with a minimum lateral yarding capability of seventy-five (75) feet while maintaining a fixed position during inhaul.

SLASH DISPOSAL - Section 41(G)(1) defines the slash disposal and site preparation work that may be required under this contract. Because of the significant uncertainty as to the appropriate level of slash disposal and site preparation that may be needed during the life of the contract the BLM has defined the treatment costs in Section 41(G)(2)(a) but has only appraised for a small portion of the work that might be required in Section 41(G)(1). The BLM, in accordance with Section 41(G)(2)(c), will unilaterally modify the contract to accomplish all of the necessary slash disposal and site preparation, beyond that which was appraised, using the menu of prices defined in Section 41(G)(2)(a). Appraised slash disposal consists of 200 acres of hand piling/covering, and 200 acres of hand pile burning.

CONTRACT TERMINATION - A Special Provision has been added to the contract which enables the Contracting Officer to suspend the contract to facilitate protection of certain plant or animal species, and/or to modify or terminate the contract when necessary to comply with the Endangered Species Act, or comply with a court order, or protect species which were identified for protection through survey and manage and/or protection buffer standards and guidelines established in the ROD and RMP. This contract provision limits the liability of the Government to the actual costs incurred by the Purchaser which have not been amortized by timber removed from the contract area.

PERFORMANCE BOND - A performance bond in the amount of 20% of the total purchase price will be required.

OTHER -

1. No extension of time beyond the normal 30 days will be granted for completing bonding and contract signing requirements.
2. A BLM logging plan was prepared for the appraisal and is available for review. The logging plan estimates harvest systems to be 82% ground-based, and 18% skyline, (calculated by acres).
3. In skyline cable yarding units, to maintain canopy and to protect advanced conifer reproduction, corridors would be perpendicular to the slope, kept to a minimum number per landing, as operationally feasible, and width shall be kept as narrow as possible (max. 15 feet). Cable landings should be spaced one hundred fifty (150) feet apart where feasible.
4. BLM haul roads and harvest operations are seasonally restricted. Some variations of the restricted dates are possible depending on weather conditions.
5. Directional felling away from boundaries and fences is required. Fences damaged as a result of harvest operations under the terms of this contract must be repaired at Purchaser's expense.
6. The purchaser must notify the Authorized Officer in writing by February 1 of each calendar year in which operations are expected to take place in Units 3-5 and 29-1 between March 1 and September 30 so that BLM biologists can survey for spotted owls to protocol.
7. Keys can be issued to prospective purchasers to provide access through locked gates. Please contact John Samuelson at 541-618-2313.

NARRATIVE DESCRIPTION OF HOW TO GET TO THE TIMBER SALE AREA – The sale area is northeast of Ashland, OR, accessible by Dead Indian Memorial Highway and by Hwy 66, also known as the Greensprings Highway. Notice to Bidders

On December 17, 2009, the District Court for the District of Western Washington issued an Order in the lawsuit over the 2007 Records of Decision (RODs) to remove the Survey and Manage Mitigation Measure Standards and Guidelines within the Range of the Northern Spotted Owl. In the Order the Court made its ruling related to National Environmental Policy Act (NEPA) claims, finding multiple inadequacies in the 2007 Final Supplement to the 2004 Supplemental Environmental Impact Statement (2007Final Supplement) on which the 2007 RODs are based.

The Court acknowledged that there remain substantive issues beyond the NEPA claims before the court for which resolution is likely to affect the appropriate remedy. The Court declined to address remedy at the time of issuing the Order and requested parties confer about appropriate case management in light of the Order and submit briefing schedules. There is still ongoing litigation related to the 2007 RODs and remedy is yet to be determined.

The Bureau will proceed to offer for bid Tract # OR110 TS10-19, Sampson Cove Timber Sale. Although it is not known at this time what the remedy associated with the December 2009 Order will be, this notice is given to advise all bidders that significant delays may occur before award of the sale or before any operations may be undertaken on this tract, and it is possible the sale may never be awarded. Operations may also be suspended after on-site activity has begun.

To ensure that this notice is understood, the high bidder for this tract will be required to acknowledge receipt of a copy of this notice.

ACKNOWLEDGEMENT

I acknowledge receipt of a copy of this notice and understand that because of the December 2009 Order, any decision to award the Tract # OR110 TS10-19, Sampson Cove Timber Sale, may be significantly delayed, or operations suspended, and that the United States has authority under 43 CFR § 5442.3 to reject all bids if this is found to be in the interest of the Government.

NOTICE TO BIDDERS

By letters received August 31, and September 3, 2010, the Klamath Siskiyou Wildlands Center, Cascadia Wildlands, Oregon Wild, Soda Mountain Wilderness Council, the Wilderness Society and the Center for Biological Diversity protested the Bureau of Land Management's plan to offer the following timber sale: Sampson Cove. The protestors opposed the sale for a number of reasons. A copy of the protest is available in our office.

The BLM is presently considering the protest. The Bureau will proceed to offer for bid the tract affected by the protest. Prospective bidders are advised, however, that in accordance with 43 CFR § 5003.3, we intend to delay the decision to award the contract for the protested tract until a response has been made to the protest. In the event the protest is denied, the Authorized Officer may decide to give immediate effect to the decision and proceed to award the contract. However, the appellants would have the right to petition the Office of Hearings and Appeals to stay the implementation of the decision. If immediate effect is not given to the decision, then a further delay of the award of the contract would be imposed if the decision is appealed.

This means that if the purchaser elects to begin operations on the sale before the Office of Hearings and Appeals renders a decision on any petition to stay, an adverse ruling may cause the sale to be suspended until the Office of Hearings and Appeals issues a decision on the appeal.

Although it is not known at this time what decision will be made on the protest, or whether any appeal will be filed by the Klamath Siskiyou Wildlands Center, Cascadia Wildlands, Oregon Wild, Soda Mountain Wilderness Council, the Wilderness Society and the Center for Biological Diversity, this Notice is given to advise all bidders that significant delays may occur before award of the sale or before any operations may be undertaken on the tract listed in the appeal. To ensure that this Notice is understood, the high bidder for the tract listed in the protest will be required to acknowledge receipt of a copy of this Notice.

ACKNOWLEDGMENT

I acknowledge receipt of a copy of this Notice and understand that because of the protest and possible appeal, any decision to award the Sampson Cove timber sale, OR110-TS10-19, may be significantly delayed, or operations suspended, and that the United States has authority under 43 CFR § 5442.3 to reject all bids if this is found to be in the interest of the Government.
