## Having Visions of Sugarplum Fairies? Christmas Tree Tags Available For Sale Starting Wednesday, November 24, 2010

**Medford/Coos Bay, OR**—With the holiday season just around the corner, a great family activity to consider is taking a trip to the woods to cut your own holiday tree.

Christmas tree tags may be purchased by individuals and families to cut personal-use trees for Christmas and other holiday events. A permit is required for the harvest of each individual tree.

Christmas tree permits from the BLM Medford District, BLM Coos Bay District and Rogue River-Siskiyou National Forest will be officially available at all office and vendor locations starting on Wednesday, November 24, 2010, the day before the Thanksgiving holiday.

The permits sell for \$ 5.00 per tree and are non-refundable. There is a limit of five tree permits per person. The permits cover a large area that includes the Rogue River-Siskiyou National Forest and the Coos Bay and Medford Districts of the BLM, where lands are open to personal use tree harvesting. Maps with directions to cutting areas will be provided.

The Christmas tree permit tag is validated after harvesting your tree by cutting out the date, month and year on the tree tag and securely attaching it to the cut tree in a visible location before transporting it.

## Important Note

Christmas tree harvest is NOT allowed in wilderness areas, campgrounds, developed recreation areas, National Monuments, Research Natural Areas, Area's of Critical Environmental Concern, within fences or posted tree plantations within 200 feet of state highways or on private lands. Christmas tree cutting is also NOT permitted within the Cascade-Siskiyou National Monument, the Wild and Scenic Rogue River corridor and Recreation Areas. This stresses the importance of having your tree permit map with you, along with a local Forest or BLM map, and a good understanding of your location prior to cutting.

## Christmas Tree Tags Available For Sale-Safety Precautions

Traveling safely on public lands is very important for you and your family's health and safety. Keep in mind that roads on public lands administered by the Forest Service and BLM are not plowed in the winter and can present some situations that quickly become dangerous if you are not properly prepared. You should be prepared for winter weather and check weather conditions prior to departure. It is strongly encouraged that you take a reliable map of the area (Forest Service or BLM map in addition to your tree permit map) with you and travel with a full tank of gas. Bring along adequate winter apparel, blankets/sleeping bags, food, water, warm beverages, first aid kit, flashlight, whistle, mirror and shovel in your vehicles while traveling in the forest. Always let someone know where you plan to harvest your tree and when you expect to return. Consider going out with a more experienced friend if you are new to this activity or unfamiliar with the area in which you will be travelling.

The Bear Camp Coastal route is not advisable for travel this time of year; the route is not maintained for winter travel from November 5<sup>th</sup> through May 31<sup>st</sup>. Happy holidays!

*The mission of the USDA Forest Service is to sustain the health, diversity, and productivity of the Nation's forests and grasslands to meet the needs of present and future generations. The Agency manages 193 million acres of public land, provides assistance to State and private landowners, and maintains the largest forestry research organization in the world.*

*About the BLM: The BLM manages more land – 253 million surface acres – than any other Federal agency. This land, known as the National System of Public Lands, is primarily located in 12 Western States, including Alaska. The Bureau, with a budget of about \$1 billion, also administers 700 million acres of sub-surface mineral estate throughout the nation. The BLM's multiple-use mission is to sustain the health and productivity of the public lands for the use and enjoyment of present and future generations. The Bureau accomplishes this by managing such activities as outdoor recreation, livestock grazing, mineral development, and energy production, and by conserving natural, historical, cultural, and other resources on public lands.*
