Ashland Resource Area

Prescription For Manual Treatment

Reserve Vegetation In All Areas of a Unit:

No cutting of White Oak, Black Oak, or Madrone.

Prescription in Hardwood/Conifer Areas:

Cut all brush.

Thin conifers that are less than 7" DBH on a 25' X 25" spacing using the following preferred species order list.

Preferred Species Order:

Sugar Pine, Ponderosa Pine, Cedar, Douglas Fir, last choice White Fir.

Prescription in Areas that are dominated by Brush:

Where reserve vegetation or conifers are not present use the following criteria for leave vegetation:

Brush clumps (no greater than 15' canopy width). Space leave clumps on a 45' X 45' spacing. Clumps should not be less than 45' from unit boundary and any other reserve vegetation. (E.g. Should not be a leave clump within 45' of leave oak).
