

Summary of Prioritization Responses

Please respond to this email with “Agree” or “Disagree” to each of the two following criteria that will only apply to the initial (demo) Pilot Project.				
	Agree	Disagree	Total Responses	
1. Units should be viewable/accessible to the public.	18	4	22	
2. Units should be representative of as many of the vegetative conditions as possible for a good cross section to learn from in the Demo Pilot.	18	4	22	
Additionally, please respond with selection of your top three criteria (by number).				
	Priority #1	Priority #2	Priority #3	Total
1. Ability to maintain treatments over time.	2	5	3	10
2. Stands with existing road access.	6	3	0	9
3. Stands needing road access.	0	0	1	1
4. Young stands (generally ages 0-60).	2	1	2	5
5. Restoration adjacent to the Urban Interface (the value of life and property) as identified in local and regional fire plans.	2	3	2	7
6. Restoration adjacent to highly suitable owl habitat.	2	1	1	4
7. Restoration adjacent to riparian areas.	1	2	1	4
8. Produce timber volume.	4	0	4	8
9. Provide for a mix of resulting contracts (timber sale, stewardship, service).	0	3	0	3
10. Stands uncharacteristically susceptible to fire, insects, or disease	9	3	6	18
