

Categorical Exclusion Determination and Decision Record for PacifiCorp Electrical Line Maintenance/Repair, OR 9190 DOI-BLM-OR-M050-2010-0017-CX

Description of Proposed Action:

The proposed project is to install a support pole to prevent an existing electrical line from sagging between poles on BLM-administered lands. The electrical line runs along Hawk Creek and road 32-1E-23 approximately 14 miles northeast of Trail, Oregon. The right-of-way area is 75 feet wide in the area of the repair and runs parallel and directly over the creek. The plan is to “rough in” a short spur road of approximately 250 - 300 feet to facilitate equipment crossing Hawk Creek to the location of the new pole installation. Rip-rap will be placed around the base of the pole to prevent erosion during high water. Removal of a stump and movement of some minor slash will be necessary. The natural surface spur will be used for this repair only and will be seeded with native grasses and blocked at the end of the project. The site is located as follows: NE¼ SE¼ Section 10, Township 32 South, Range 1 East, W.M., Jackson County, Oregon.

Plan Conformance Review

This proposal was not scoped and the public was not involved in its development. This proposal is consistent with policy directed by the following:

- *Medford District Record of Decision and Resource Management Plan (ROD/RMP)*
- *Record of Decision for Amendments to Forest Service and Bureau of Land Management Planning Documents Within the Range of the Northern Spotted Owl (Northwest Forest Plan)*
- *Medford District Integrated Weed Management Plan Environmental Assessment and tiered to the Final-Northwest Area Noxious Weed Control Program Environmental Impact Statement*

The proposed action is in conformance with the direction given for the management of public lands in the Medford District by the Oregon and California Lands Act of 1937, Federal Land Policy and Management Act of 1976, Endangered Species Act of 1973, Clean Water Act of 1987, Safe Drinking Water Act of 1974 (as amended 1986 and 1996), Clean Air Act of 1990 (as amended), and Archaeological Resources Protection Act of 1979.

This proposal is consistent with management direction in the Medford District Resource Management Plan that directs the BLM to *continue to make BLM-administered lands available for needed rights-of-way where consistent with local comprehensive plans, Oregon statewide planning goals and rules, and the exclusion and avoidance areas identified in this RMP* (USDI 1995, p. 82).

Project Design Features

- PacifiCorp shall mulch, fertilize and seed all areas where in the course of the project, soil is exposed on the right-of-way or access road. The type, quality and quantity of materials used shall be approved by the BLM Authorized Officer.
- Project shall be started and completed during the “in-stream work window”, June 15 to September 15.

- Clean all equipment prior to arrival on site to minimize the introduction of noxious weeds.
- Refuel and maintain equipment outside of riparian reserves and locate fueling areas so accidental spills will be contained and will not drain into the stream system.
- Material staging and disposal sites for excess material will be preapproved by the BLM authorized officer.
- Use appropriate traffic control signs and devices for public safety while work is in progress.
- Stop work and notify the BLM within 12 hours if an archaeological site is discovered during the project.
- Spur road will be blocked to prevent future motor vehicle use as directed by the BLM Authorized Officer.
- Restrict spur road construction from October 15 to May 15 or when soil moisture exceeds 25 percent.
- No disturbance within Special Status plant buffer. Buffer is flagged with black and yellow flogging. Plant site is located on the north side of Hawk Creek. Before ground disturbance contact the BLM Authorized Officer for specific buffer location.

Categorical Exclusion Determination

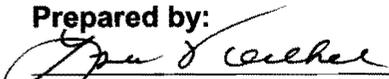

This proposed action qualifies as a categorical exclusion as provided in the Code of Federal Regulations (CFR) at 43 CFR 46.210(f), which allows for "Routine and continuing government business, including such things as supervision, administration, operations, maintenance, renovations, and replacement activities having limited context and intensity (e.g., limited size and magnitude or short-term effects)."

Before any action described in the list of categorical exclusions may be used, the "extraordinary circumstances," included in the Code of Federal Regulations (CFR) at 43 CFR 46.205(c) must be reviewed for applicability. After review, the BLM determined no extraordinary circumstances exist that would cause the proposed action to have a significant environmental effect. The action will not require additional analysis.

Administrative Remedies

In accordance with BLM's Rights-of-Way regulations (43 CFR § 2801.10), administrative review of right-of-way decisions requiring NEPA assessment will be available under 43 CFR Part 4 to those who have a "legally cognizable interest" to which there is a substantial likelihood that the action authorized would cause injury, and who have established themselves as a "party to the case" (see 43 CFR § 4.410). Other than the applicant for the right-of-way, in order to be considered a "party to the case" the person claiming to be adversely affected by the decision must show that they have notified the BLM of their alleged injury through their participation in the decisionmaking process (see 43 CFR § 4.410(b) and (c)). The latest date that any affected parties received the Notice of Decision will establish the date initiating a 30-day appeal period.

Effective Date of Decision

This is a land decision on a right-of-way application. **All BLM decisions under 43 CFR Part 2800 remain in effect pending an appeal** (see 43 CFR § 2801.10) unless the Secretary rules otherwise. Rights-of-Way decisions that remain in effect pending an appeal are considered as "in full force and effective immediately" upon issuance of a decision. Thus, this decision is now in effect.

Right of Appeal

This decision may be appealed to the U.S. Department of the Interior, Office of Hearings and Appeals, Interior Board of Land Appeals (Board) by those who have a "legally cognizable interest" to which there is a substantial likelihood that the action authorized in this decision would cause injury, and who have established themselves as a "party to the case" (see 43 CFR § 4.410). If an appeal is taken, a written notice of appeal must be filed with the BLM officer who made the decision in this office by close of business (4:30 p.m.) not more than 30 days after this decision is approved (or the date the affected parties received notice of the decision). Only signed hard copies of a notice of appeal that are delivered to the BLM Medford District Office, 3040 Biddle Road, Medford, Oregon 97504 will be accepted. Faxed or e-mailed appeals will not be considered.

In addition to the applicant, anyone who has participated in the NEPA process for this project will qualify as party to the case (see 43 CFR § 4.410(b)). However, in order to qualify as an appellant, a "party to the case," you also have the burden of showing possession of a "legally cognizable interest" that has a substantial likelihood of injury from the decision (see 43 CFR § 4.410(d)).

The person signing the notice of appeal has the responsibility of proving eligibility to represent the appellant before the Board under its regulations at 43 CFR § 1.3. The appellant also has the burden of showing that the decision appealed from is in error. The appeal must clearly and concisely state which portion or element of the decision is being appealed and the reasons why the decision is believed to be in error. If your notice of appeal does not include a statement of reasons, such statement must be filed with this office and with the Board within 30 days after the notice of appeal was filed.

According to 43 CFR Part 4, you have the right to petition the Board to stay the implementation of the decision. Should you choose to file one, your stay request should accompany your notice of appeal. You must show standing and present reasons for requesting a stay of the decision. A

petition for stay of a decision pending appeal shall show sufficient justification based on the following standards:

1. The relative harm to the parties if the stay is granted or denied,
2. The likelihood of the appellant's success on the merits,
3. The likelihood of immediate and irreparable harm if the stay is not granted, and
4. Whether the public interest favors granting the stay.

A notice of appeal with petition for stay must be served upon the Board, Regional Solicitor, and PacifiCorp at the same time such documents are served on the deciding official at this office. Service must be accomplished within fifteen (15) days after filing in order to be in compliance with appeal regulations (43 CFR § 4.413(a)). At the end of your notice of appeal, you must sign a certification that service has been or will be made in accordance with the applicable rules (i.e., 43 CFR § 4.410(c) and § 4.413) and specify the date and manner of such service.

The Board will review any petition for a stay and may grant or deny the stay. If the Board takes no action on the stay request within 45 days of the expiration of the time for filing a notice of appeal, you may deem the request for stay as denied, and the BLM decision will remain in full force and effect until the Board makes a final ruling on the case.
