NOTICE OF THE FIELD MANAGERS PROPOSED DECISION

INTRODUCTION
This document addresses the issuance or renewal of your grazing lease. A proposed decision is required by the Code of Federal Regulations (CFR) 4100 to be served on any affected applicant, permittee or lessee who is affected by the proposed actions, terms, conditions, or modifications relating to issuance of a grazing lease.

BACKGROUND
The current grazing lease for the Smokey Creek Allotment, # 04124 will expire on 2/28/2010 and you, the lessee, for this allotment have requested a renewal. An Interdisciplinary team completed a Land Use Plan Conformance and Determination of NEPA Adequacy (DNA) document DOI-BLM-OR-P040-2009-0052-DNA for this proposed renewal. The DNA is available from the Prineville District upon request.

PROPOSED DECISION
Therefore, it is my proposed decision to issue you a grazing lease, authorization # 3602065, for livestock grazing on the below listed allotment. Your grazing permit/lease shall be for a period of ten years 3/01/2010-2/28/2019 and will reflect the following:

<table>
<thead>
<tr>
<th>Allotment Name and Number</th>
<th>Livestock</th>
<th>Grazing Period</th>
<th>% PL</th>
<th>Type Use</th>
<th>AUM's</th>
</tr>
</thead>
<tbody>
<tr>
<td>Smokey Creek #04124</td>
<td>17 Cattle</td>
<td>5/01-8/01</td>
<td>100</td>
<td>Active</td>
<td>51</td>
</tr>
</tbody>
</table>

Due to computer calculation rounding, the above aums may not correspond with your actual grazing preference. Your actual grazing preference is shown below.

Total animal unit months (aums) are 51, of which 51 are Active and 0 are Suspended.
Other terms and conditions of the permit/lease would be as follows:

♦ The BLM is in the process of implementing the standards for rangeland health and guidelines for grazing management. This lease/permit is subject to future modification as necessary to achieve compliance with the standards and guidelines (43 CFR 4180).

♦ Lessees/permittees are required to submit actual use grazing records within 15 days of completion of the years grazing use.

♦ Salting of livestock within one-quarter mile of water is prohibited. Supplemental feeding of livestock on public lands is prohibited without prior authorization from the BLM.

♦ Lessees/permittees are required to maintain all range improvements for which they have maintenance responsibilities.

♦ Lessees/permittees are to provide reasonable access across private and leased lands to the BLM for the orderly management and protection of the public lands as allowed in 43 CFR 4130.3-2 (H).

♦ Portions of the Smokey Creek Allotment are within the boundaries of Aldrich Mountain Wilderness Study Area (WSA). Within BLM WSAs the following land use restrictions apply:
  - Motorized vehicle use is limited to designated routes (including 4X4s, ATVs, motorcycles and aircraft).
  - Cross-country vehicle travel is not permitted.
  - Land uses involving surface disturbance require prior written approval.

RATIONALE
Based on the review of DOI-BLM-OR-P040-2009-0052-DNA, I have determined that this renewal meets the criteria for a Determination of NEPA Adequacy (DNA) and that no additional environmental analysis is required. Further more, the renewal conforms to the applicable land use plan and that the NEPA documentation fully covered the proposed action and constitutes BLM’s compliance with the requirements of NEPA.
