

Prineville BLM Project Update

October 2014

This Project Update provides current information about ongoing and future projects planned by the Prineville District of the Bureau of Land Management. It is our intent to increase the public's awareness of BLM activities and to seek ideas and comments from those who may be affected by our resource management programs. Your ideas, comments, and participation help us make informed decisions and implement better projects. Please call the project contacts listed below if you have questions, and send written comments during the project's public review period to: Prineville BLM, 3050 NE Third Street, Prineville, OR 97754. Public review dates listed below are approximate; please call the project contact or see the latest information under "Documents currently under review" on the Prineville District's web page at: <http://www.blm.gov/or/districts/prineville/plans/index.php>

Our practice is to make comments, including the names and addresses of respondents, available for public review. Unless you specifically request us to withhold your name and address, they will be made available to the public on request.

The review of the environmental effects of proposed federal actions and potential alternatives to those actions is required by the National Environmental Policy Act (NEPA). We document those actions and effects in an environmental assessment (EA) or environmental impact statement (EIS). Proposed actions already covered by an existing EA or EIS are documented in a determination of NEPA adequacy (DNA). Some minor or routine proposed actions are categorically excluded from NEPA analysis, and are documented in a CX. The list below includes only EA and EIS; see the Prineville District's web page for CXs and DNAs.

After the public comment period on an EA or EIS (generally 30-45 days), the BLM prepares a decision. Implementation can begin after the decision and any required appeal period.

Thank you for your interest in public land management.

Lands/Realty

- Cottonwood Canyon State Park EA

Location: 22 air miles NW of Condon, OR

Description: Issue lease to Oregon Parks & Recreation Department to manage 10,000 acres of BLM public land in conjunction with their State Park. Consider changes to boating use capacity on Segment 1 of John Day Wild & Scenic River.

When was EA/EIS available for public review (or expected date for review): 2/15/2015

Decision/implementation (blank if not done):

For further information, please contact Anna Smith 541/416-6747

- Glass Buttes Communication Site and VRM Plan Amendment EIS

Location: 50 air miles NW of Burns

Description: Amend Brothers/La Pine Resource Management Plan visual resource management categorization on less than 100 acres, and authorize the construction of two communication sites on Glass Buttes.

When was EA/EIS available for public review (or expected date for review): 11/1/2015

Decision/implementation (blank if not done):

For further information, please contact Michael Kroll 541/416-6852

- Spring Basin Land Exchanges EA

Location: 10 air miles SW Fossil

Description: Legislated land exchange +/- 5,000 acres BLM public, +/- 5,000 private

When was EA/EIS available for public review (or expected date for review): 1/15/2015

Decision/implementation (blank if not done):

For further information, please contact Susie Manezes 541/416-6725

Minerals/energy

- Bravo Bentonite Mine EA

Location: 43 air miles NE of Madras, OR

Description: Allow removal of 345,000 tons/year of bentonite from an area near Clarno.

When was EA/EIS available for public review (or expected date for review): 1/15/2015

Decision/implementation (blank if not done):

For further information, please contact Carol Van Dorn 541/416-6727

- Wheeler County Material Quarries EA

Location: 13 air miles NW of Mitchell, OR

Description: Authorize mineral material quarries on up to 41 acres in Wheeler County in Burnt Ranch/Priest Hole area.

When was EA/EIS available for public review (or expected date for review): 1/15/2015

Decision/implementation (blank if not done):

For further information, please contact Carol Van Dorn 541/416-6727

Other

- John Day Basin Resource Management Plan EIS

Location: E side of Prineville District

Description: Complete land use plan for 450,000 acres of public land

When was EA/EIS available for public review (or expected date for review): 3/1/2012

Decision/implementation (blank if not done):
