West Butte Wind Project

PRINEVILLE DISTRICT  
2010

0 1 2 Miles

No warranty is made by the Bureau of Land Management as to the accuracy, reliability, or completeness of these data for individual or aggregate use with other data. Original data were compiled from various sources. This information may not meet National Map Accuracy Standards. This product was developed through digital means and may be updated without notification.

Alternative 2 was developed to analyze the effects of a project configuration that would avoid impacts to BLM-managed lands. This route focuses on providing access to the Connected Action facilities in Crook County from the north. To fully analyze the potential impacts of Alternative 2 in this EIS, assumptions were made as to the location of project facilities that would be re-located to Crook County, the O&M facility for example. West Butte Wind has not secured access to any of the parcels along the Northern Access Road.
