BLM to Replace Culvert on Rice Creek

Roseburg, Oregon. The Roseburg District Bureau of Land Management (BLM) will begin work replacing a culvert to improve fish passage along Rice Creek road (BLM Road 29-7-25.0), six miles southwest of Dillard, Oregon, from July 11, to August 1, 2011.

During the culvert replacement an alternate bypass route will be provided around the point of construction. Twenty minute delays should be expected.

###

About the BLM: The BLM manages more land – 258 million surface acres – than any other Federal agency. Most of this public land is located in 12 western states, including Alaska. The Bureau, with a budget of about \$1.8 billion, also administers 700 million acres of subsurface mineral estate throughout the nation. The BLM's multiple-use mission is to sustain the health and productivity of the public lands for the use and enjoyment of present and future generations. The Bureau accomplishes this by managing such activities as outdoor recreation livestock grazing, mineral development, and energy production, and by conserving natural, historical, and cultural resources on the public lands.
