Notice of Emergency Closure of Public Lands

Roseburg, Ore. – The Bureau of Land Management, Medford District, Grants Pass Resource Area and Roseburg District, South River Resource Area are issuing a Temporary Emergency closure of public lands in Douglas County & Josephine County, Oregon. This closure affects public lands within the perimeter of the Douglas Complex fire, on lands administered by the BLM.

This emergency closure is necessary to ensure public safety, land health, and resource integrity during firefighting activities and initial suppression rehabilitation efforts. The fire is not contained or controlled, and ongoing suppression and restoration activities preclude safe public access. The areas affected by this closure order will be posted with appropriate regulation signs at main access and entry points.

SUMMARY: Pursuant to 43 CFR 8364.1, the Bureau of Land Management (BLM) is giving notice that public lands west of Glendale, OR as described below are closed to all unauthorized entry, effective immediately and remaining in effect until the Douglas Complex is declared contained, which is currently projected to be Sunday, September 1, 2013.

This closure affects public lands within the perimeter of the Douglas Complex fire area, administered by the BLM through the Grants Pass Resource Area of the Medford District Office and the South River Resource Area of the Roseburg District Office, and is specific to BLM lands and routes only. The Douglas Complex consists of the Rabbit Mountain, Dads Creek and Farmer fires. Please see attached map.

This emergency closure is necessary to ensure public safety, land health, and resource integrity during firefighting activities and initial suppression rehabilitation efforts. The fire is not contained or controlled, and ongoing suppression and restoration activities preclude safe public access. ###

The BLM manages more land – more than 245 million acres - than any other Federal agency. This land, known as the National System of Public Lands, is primarily located in 12 Western states, including Alaska. The Bureau, with a budget of about $1 billion, also administers 700 million acres of sub-surface mineral estate throughout the nation. The BLM’s multiple-use mission is to sustain the health and productivity of the public lands for the use and enjoyment of present and future generations. The Bureau accomplishes this by managing such activities as outdoor recreation, livestock grazing, mineral development, and energy production, and by conserving natural, historical, cultural, and other resources on public lands.
No warranty is made by the Bureau of Land Management as to the accuracy, reliability, or completeness of these data for individual or aggregate use with other data. Original data were compiled from various sources and may be updated without notification.
