BLM Closes Road Due to Rock Slide

Roseburg, OR. - The Roseburg District Bureau of Land Management (BLM) will close the 29-4-11 road leading through the Louis Creek drainage due to an active slide and road instability. The closure will be effective immediately.

Due to the instability of the hillside above and below the roadway, the road will be closed indefinitely. Alternate routes are available to access public lands beyond the slide area. The attached map identifies the slide area and closure location.

For questions relating to this closure please contact Cheyne Rossbach at 541-579-0648

###

The BLM manages more land – more than 245 million acres - than any other Federal agency. This land, known as the National System of Public Lands, is primarily located in 12 Western states, including Alaska. The Bureau, with a budget of about \$1 billion, also administers 700 million acres of sub-surface mineral estate throughout the nation. The BLM's multiple-use mission is to sustain the health and productivity of the public lands for the use and enjoyment of present and future generations. The Bureau accomplishes this by managing such activities as outdoor recreation, livestock grazing, mineral development, and energy production, and by conserving natural, historical, cultural, and other resources on public lands.

Come join the Oregon/Washington BLM on Facebook, Twitter, YouTube, and Flickr for the latest on outdoor opportunities, videos of your public lands, spectacular photos, and a whole lot more!
