Want to Make a Difference with Youth and Public Lands? Become an Outreach and Education Specialist!

Roseburg, Ore. - The Roseburg District Bureau of Land Management (BLM) in partnership with United Communities AmeriCorps is seeking a high energy, self-motivated individual interested in working with youth as an AmeriCorps Outreach and Education Specialist through the United Community Action Network in Roseburg, Oregon.

As an AmeriCorps Outreach and Education Specialist you would mentor and work with youth on BLM and Oregon Youth Conservation Corps projects. Duties also include working to expand student workforce opportunities while helping to enhance outreach for youth based education programs sponsored by the BLM and other partner agencies. Some examples of these programs include the [Resources and People \(RAP\) Camp](#) program, Glide Forestry School, National Public Lands Day and more.

The United Communities AmeriCorps engages AmeriCorps members in meaningful service designed to meet critical community needs in Coos, Douglas, and Josephine counties in Southern Oregon. AmeriCorps partners with community-based organizations, government agencies and schools to address local community needs in the areas of education, healthy futures, and economic opportunity.

This AmeriCorps position is for 900 hours which is equivalent to working full-time for about 6 months. Additionally, AmeriCorps provides an education award of \$2,822.50.

A full description of the position and the application to apply can be found at:
<https://my.americorps.gov/mp/listing/viewListing.do?id=58362&fromSearch=true>

###

The BLM manages more land – more than 245 million acres - than any other Federal agency. This land, known as the National System of Public Lands, is primarily located in 12 Western states, including Alaska. The Bureau, with a budget of about \$1 billion, also administers 700 million acres of sub-surface mineral estate throughout the nation. The BLM's multiple-use mission is to sustain the health and productivity of the public lands for the use and enjoyment of present and future generations. The Bureau accomplishes this by managing such activities as outdoor recreation, livestock grazing, mineral development, and energy production, and by conserving natural, historical, cultural, and other resources on public lands.
