Source Data: State of the Forest (Year 2006) for the No Action Alternative under the W. Oregon Plan Revision

All Lands = All BLM lands with out roads and non forest areas

HLB = Harvest Land Base for the Matrix and AMA lands which the Allowable Sale Quantity (ASQ) is based.

LSR and Riparian Reserves - acres and volume where harvest may occur but is not included in the Allowable Sale Quantity (ASQ) calculation.

The remaining difference from All lands, and Matrix/AMA and LSR/Riparian Reserve are lands administratively or congressionally withdrawn.

Ten-year age classes example: 40-70 year age class includes stands 36-75 years old.

Volumes shown are net (less mortality).
