

Roseburg District BLM Planning Update

Fall 2012

September 4, 2012

Dear Citizen:

The Quarterly Planning Update is published with the intent of providing current information about discretionary management actions being undertaken, specific projects and future events planned on the Roseburg District of the Bureau of Land Management (BLM).

With publication of a Notice of Intent in the Federal Register, on March 9, 2012, the BLM began the process of revising resource management plans for the Salem, Eugene, Roseburg, Coos Bay, and Medford Districts, and the Klamath Falls Resource Area of the Lakeview District. Public scoping meetings were held during the month of May. Completion of this planning effort is anticipated by September 30, 2015. Additional information on this planning effort may be obtained at <http://www.blm.gov/or/plans/rmpswesternoregon/>.

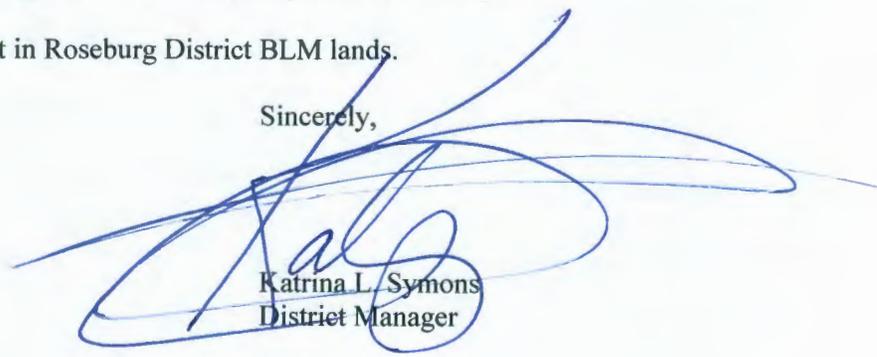

On June 26, 2012, and August 14, 2012, the BLM advertised for auction the two timber sales developed with the direction and objectives of the 1995 Roseburg District *Record of Decision and Resource Management Plan*, and analyzed in the Roseburg District Secretarial Demonstration Pilot Project Environmental Assessment. For additional information about the Secretarial Pilot, we invite you to visit the Roseburg Pilot Project web site at: <http://www.blm.gov/or/districts/roseburg/forestrypilot/> or email us at forestrypilotproject@blm.gov.

The Roseburg District also continues work on the Vegetation Management Activities Using Herbicides Environmental Assessment. For additional information on this project we invite you to visit <http://www.blm.gov/or/districts/roseburg/plans/vegea.php>

We will keep you updated on further developments through the Quarterly Planning Update and the district website at: <http://www.blm.gov/or/districts/roseburg/plans/index.php>. As with previous planning updates, this edition contains information on the wide array of work that is underway or proposed for the Roseburg District. Please send written comments on BLM projects, including the specific project and field office name, to 777 N.W. Garden Valley Blvd., Roseburg, Oregon 97471, during the public comment period.

Thank you for your interest in Roseburg District BLM lands.

Sincerely,

Katrina L. Symons
District Manager

Categorical Exclusions

In implementation of the NEPA regulations, the BLM has developed categorical exclusions covering management actions for many resource programs, including fish and wildlife, forestry, realty, transportation, recreation management and emergency stabilization following a natural disaster. In developing categorical exclusions, the BLM demonstrated through rulemaking procedures how these actions do not typically result in significant environmental effects and set forth the methodology and criteria used to define the categories of actions. These rulemaking procedures included extensive public involvement and input, and CEQ review, regarding appropriate limits on the use of the categorical exclusion to assure that any categorically excluded action would remain within the effects of actions covered in the analysis for the rulemaking. The purpose of a categorical exclusion is to eliminate the need for unnecessary paperwork under NEPA. Specifically, Council of Environmental Quality (CEQ) regulations for the National Environmental Policy Act (NEPA) at 40 CFR §1508.4 state that:

“‘Categorical exclusion’ means a category of actions which do not individually or cumulatively have a significant effect on the human environment and which have been found to have no such effect in procedures adopted by a Federal agency in implementation of these regulations (Sec. 1507.3) and for which, therefore, neither an environmental assessment nor an environmental impact statement is required...Any procedures under this section shall provide for extraordinary circumstances in which a normally excluded action may have a significant environmental effect.”

Use of categorical exclusions on the Roseburg District includes an internal exemption review of extraordinary circumstances as prescribed through CEQ and Departmental/Bureau policy. We include categorical exclusions in the Roseburg District Quarterly Planning Update to keep the public informed, but because the actions are categorically excluded from NEPA review, there is not a comment/response process as with NEPA documents such as environmental assessments (EAs) and environmental impact statements (EISs).

Roseburg District

- There are no new categorical exclusions at the District level this quarter.

South River Field Office

- There are no new categorical exclusions for the South River Field Office quarter.

Swiftwater Field Office

- **Salvage** – Salvage of blown down timber will occur in three principle locations within the General Forest Management Area land use allocation and located within the Elk Creek, Lower North Umpqua and Middle North Umpqua watersheds. The salvage may include recovery of trees within 400 feet of existing roads. In all locations, standing trees that are dead or dying, or which are root sprung and pose a potential hazard to road users will be removed in conjunction with salvage operations. (DOI-BLM-OR-R040-2012-0009-CX).
- **Johnson Creek Slide / Road Repair** – The project will realign approximately 350 feet of the 22-7-2.0 road which was damaged by a slide during the winter of 2012. The realignment involves removal of trees and slide debris, excavation of the new road surface and placement of new base rock and asphalt paving. The work, except for the paving, will be completed August – September 2012. Paving is planned to occur in August of 2013. (DOI-BLM-OR-R040-2012-0006-CX).

New Projects

Roseburg District

Timber Management Activities

There are no new planning starts underway for timber management activities at the District level.

Restoration Activities

There are no new planning starts underway for restoration activities at the District level.

Other Activities

There are no new planning starts underway for other, miscellaneous activities at the District level.

South River Field Office

Timber Management Activities

There are no new planning starts underway for timber management activities in the South River Field Office.

Restoration Activities

There are no new planning starts for restoration activities in the South River Field Office.

Other Activities

There are no new planning starts for other, miscellaneous activities in the South River Field Office.

Swiftwater Field Office

Timber Management Activities

There are no new planning starts underway for timber management activities in the Swiftwater Field Office.

Restoration Activities

There are no new planning starts underway for restoration activities in the Swiftwater Field Office.

Other Activities

There are no new planning starts for other, miscellaneous activities in the Swiftwater Field Office.

Status of Previous Planning Update Action Items

Roseburg District

Timber Management Activities

Roseburg Secretarial Pilot Project

Description: The project implements principles of ecosystem restoration proposed by Drs. Norm Johnson and Jerry Franklin, and endorsed by Secretary of the Interior Kenneth Salazar. The project applies variable retention harvest on an estimated 349 acres of interior moist forest in the General Forest Management and Adaptive management Area and Connectivity/Diversity Block land use allocations for the purposes of ecosystem and economic restoration. The alternative selected also applies density management in approximately 19 acres of Riparian Reserves in Section 17, T. 28 S., R. 3 W., W.M.

Location: Sections 31, 32 and 33, T. 28 S., R. 2 W.; Sections 17, 23 and 25, T. 28 S., R. 3 W., and Section 4, T. 29 S., R. 2 W., Willamette Meridian.

Issue Identification: Complete.

Analysis: Environmental Assessment.

Public Comment Period: April 3 through May 3, 2012

Decision Date: The first decision for the Buck Rising Variable Retention Harvest project was issued on June 26, 2012, and the sale was sold at auction on July 24, 2012. The remaining decision for the White Castle Variable Retention Harvest project was advertised on August 14, 2012, and the sale will be offered at auction on September 11, 2012.

Restoration Activities

There are no previous planning actions to update for restoration activities at the District level.

Other Activities

Vegetation Management Activities Using Herbicides

Description: The BLM Roseburg District is beginning work on an Environmental Assessment (EA) for *Vegetation Management Activities Using Herbicides*. Noxious weeds and invasive plants infest BLM-administered lands across the Roseburg District, threatening native ecosystems and habitat, adjacent lands and infrastructure. The BLM is proposing to use herbicides as part of an integrated vegetation management strategy to control noxious and invasive species and achieve landscape health objectives. The EA proposal, scoping notice and related materials can be accessed on the web at: <http://www.blm.gov/or/districts/roseburg/plans/index.php>.

Location: Throughout Roseburg District administered lands.

Issue Identification: Completed. Public scoping was conducted June 15, 2011 through July 15, 2011 and a public open house was held on June 27, 2011 at the Roseburg District BLM Office.

Analysis: Environmental Assessment.

Public Comment Period: Unknown at this time.

Decision Date: Unknown at this time.

South River Field Office

Timber Management Activities

Camas Valley 2011 Harvest Plan

Description: The proposal consists of: commercial thinning and density management of approximately 1,609 acres in the Timber Management Area, associated Riparian Management Areas; and Late-Successional Management Areas; and regeneration of approximately 239 acres of 60 to 70 year old stands in the Timber Management Area with density management in associated Riparian Management Areas. Design of the project and analysis of the effects of the proposed action will conform to the management objectives of the 1995 Roseburg District *Record of Decision and Resource Management Plan* and will tier to the analytical assumptions and conclusions of the 1994 Roseburg District *Proposed Resource Management Plan/Environmental Impact Statement*.

Location:

- Commercial thinning/Matrix and density management/Riparian Reserves: Sections 19, 29 and 31, T. 28 S., R. 8 W.; Sections 9, 27 and 31, T. 29 S., R. 8 W.; Sections 13 and 35, T. 29 S., R. 9 W.; and Sections 3 and 27, T. 30 S., R. 9 W., W.M.
- Potential variable retention harvest/General Forest Management Area and density management/Riparian Reserves: Section 35, T. 29 S., R. 9 W., W.M.
- Density management/Late-Successional Reserves: Sections 5, 17 and 27, T. 28 S., R. 8 W.; Sections 5 and 15, T. 29 S., R. 8 W.; Sections 3, 15, 23 and 27, T. 29 S., R. 9 W.; Sections 9, 17, 19, 27, and 33, T. 30 S., R. 8 W.; and Section 25, T. 30 S., R. 9 W., W.M.

Issue Identification: Complete.

Analysis: Environmental Assessment.

Public Comment Period: Anticipated in the winter of 2012/2013.

Decision Date: Fiscal years 2013 and 2014, and possibly 2015.

Restoration Activities

South Myrtle Creek Instream Restoration

Description: Placement of logs and tree-lining of two reaches of South Myrtle Creek, approximately one mile in total length. Logs obtained from off-site sources were placed using an excavator operating on designated trails.

Location: Sections 11 and 15, T. 29 S., R. 3 W., W.M.

Issue Identification: Complete.

Analysis: An interdisciplinary team prepared a Determination of NEPA Adequacy, tiered to the analysis contained in the 2008 Roseburg District Aquatic Restoration EA, to inform a decision on the project proposal,

Decision Date: A decision to implement this project was issued on June 6, 2012.

Deadman Creek Instream Restoration

Description: Placement of large wood in a reach of Deadman Creek approximately 0.8 miles in length, and a 0.1 mile reach of Middle Fork Deadman Creek. The project is intended to create and enhance spawning and rearing habitat for Coastal cutthroat trout, and improve the hydrologic function of the stream by aggrading the channel, reducing down-cutting, and expanding the floodplain.

Location: Sections 26 and 27, T. 29 S., R. 2 W., W.M.

Issue Identification: Complete.

Analysis: An interdisciplinary team will prepare a Determination of NEPA Adequacy, tiered to the analysis contained in the 2008 Roseburg District Aquatic Restoration EA, to inform a decision on the project proposal,

Decision Date: A decision to implement this project was issued on June 6, 2012.

Other Activities

White Rock Travel Management Plan

The Umpqua Lands Trail Riders Association has brought forward a proposal to develop an OHV emphasis area near White Rock, in the Myrtle Creek watershed. The Roseburg District does not have the capacity to fully evaluate this proposal at this time. However, prework will be opportunistically conducted in preparation for a full evaluation of the proposal in the future.

Description: A comprehensive travel management plan that will include inventory and possible development of roads and trails for both motorized and non-motorized uses.

Location: T. 28 S., R. 4 W., W.M.; T. 29 S., R. 4 W., W.M.; T. 28 S., R. 3 W., W.M.; and T. 29 S., R. 3 W., W.M. The exact boundary of the planning area is yet to be determined.

Scoping Period: Unknown at this time.

Issue Identification: Unknown at this time.

Analysis: Environmental Assessment.

Public Comment Period: Unknown at this time.

Decision Date: Unknown at this time.

Swiftwater Field Office

Timber Management Activities

Half and Half Commercial Thinning

Description: Density management of 36-57 year old forest stands on 1163 acres in the Upper Smith River watershed within General Forest Management Area, Connectivity/Diversity Block and Late Successional Reserve land use allocations. Two sales are planned: Halfway There (561 acres) and Halfway Decent (602 acres) which are anticipated to yield approximately 8.0 MMBF of timber.

Location: Sections 2, 3, 4, 5, 7, 8, 9, 15, 16 and 17 of T. 21 S., R. 7 W. and Section 33 of T. 20 S., R. 7 W., W.M.

Issue identification: Unknown at this time.

Analysis: Environmental Assessment.

Public Comment Period: Unknown at this time.

Decision Date: Separate decisions for each sale with Halfway Decent anticipated in fiscal year 2014 and Halfway There anticipated in fiscal year 2015.

Elk Wings Thinning

Description: Thinning in the General Forest Management Area, Connectivity/Diversity Block, Late-Successional Reserve, and Riparian Reserve land use allocations in the Elk Creek and Upper Umpqua watersheds. It involves the silvicultural thinning of 41-69 year old forest stands. Three sales are planned: Uncle Albert (228 acres), Lost Cub (345 acres), and Admiral Halsey (157 acres).

Location: Sections 23 and 27 of T. 22 S., R. 06 W. and Sections 11, 14, 15, 21 and 23 of T. 23 S., R. 06 W., W.M.

Issue Identification: Completed.

Analysis: Environmental Assessment.

Public Comment Period: Anticipated June 2012.

Decision Date: Separate decisions for each sale (3 total): Uncle Albert (April 2013); Lost Cub (October 2013); Admiral Halsey (March 2014).

Thunder Bolt Thinning

Description: Thinning in the Adaptive Management Area (AMA), General Forest Management Area, Connectivity/Diversity Block, and Riparian Reserve land use allocations in the Little River and Middle North Umpqua River watersheds. It involves the silvicultural thinning of 49-73 year old forest stands. Three sales are planned: Big Thunder (450 acres), Thundering Herd (540 acres), and Rolling Thunder (395 acres).

Location: Sections 19, 20, 21, 23, 25, 26, 27, 29, 30, 31, and 33, T. 26 S., R. 2 W., W.M.

Issue Identification: Completed.

Analysis: Environmental Assessment.

Public Comment Period: Anticipated December 2012.

Decision Date: Separate decisions for each sale (3 total): Big Thunder (anticipated in fiscal year 2013), Thundering Herd (anticipated in fiscal year 2014), and Rolling Thunder (anticipated in fiscal year 2014).

Johnson Cleghorn Thinning

Description: Thinning of approximately 428 acres of 42-51 years old forest stands within the General Forest Management Area, Late-Successional Reserve, and Riparian Reserve land use allocations in Upper Smith River. The analysis of this thinning project will evaluate alternatives based on the 2010 Roseburg District Collaborative Forestry Pilot.

Location: Potential units are located in Sections 4, 5, 7, 8, 9, and 18, T. 21, S., R. 7 W., W.M.

Issue Identification: Completed.

Analysis: Environmental Assessment.

Public Comment Period: Completed September 13 – October 13, 2011.

Decision Date: Anticipated in September of 2012.

Box of Rocks Commercial Thinning and Density Management

This analysis was conducted by the South River Field Office, which will prepare and administer the project.

Description: Commercial thinning and density management of approximately 1,255 acres in the Matrix land use allocations and associated Riparian Reserves, and density management of approximately 395 acres allocated to Late-Successional Reserves. The project is anticipated to yield 12 to 15 million board feet of timber.

Location: Section 31 of T. 24 S., R. 1 W., Willamette Meridian (W.M.); Sections 5, 6, 7, 8, 15, 23, 25 and 26 of T. 25 S., R. 1 W., W.M.; and Sections 1, 7, 11, 15, 17, 23 and 25 of T. 25 S., R. 2 W., W.M.

Issue Identification: Completed.

Analysis: Environmental Assessment complete.

Public Comment Period: Completed February 22 through March 24, 2011.

Decision Date: A first decision, Cancoon Commercial Thinning, was published in June 2012. Additional decisions will be forthcoming in fiscal years 2013 and 2014.

Little River MMX Thinning

Description: Thinning in the Adaptive Management Area (AMA), General Forest Management Area, and Riparian Reserve land use allocations in the Little River and Lower and Middle North Umpqua River watersheds. It involves the silvicultural thinning of 35-62 year old forest stands. Five sales are planned: Root Canal (250 acres), Red Butte (250 acres), Baker Street (150 acres), Horseshoe (500 acres), and Emile Islands (150 acres). Formerly, only four sales were planned but Root Canal is planned to be split into two sales; one still called Root Canal and another called Red Butte.

Location: Sections 23, 25, 26, 27, and 35 of T. 26 S., R. 3 W.; Sections 1, 3, 5, 7, 17, 18, 21, 28, 29, 30, and 32, T. 27 S., R. 2 W., Section 1, 3, 11, 21, 23, and 25, T. 27 S., R. 3 W., W. M.

Issue Identification: Completed.

Analysis: Environmental Assessment.

Public Comment Period: Completed January 31 through February 29, 2012.

Decision Date: Separate decisions for each sale (5 total): Root Canal (February 2012; Sold March 2012), Red Butte (April 2012), Baker Street (August 2012), Horseshoe (January 2013), and Emile Islands (March 2013).

Restoration Activities

There are no previous planning actions to update for restoration activities in the Swiftwater Field Office.

Other Activities

There are no previous planning actions to update for other, miscellaneous activities in the Swiftwater Field Office.

North Bank Habitat Management Area (NBHMA) Activities

Description: During the next three months, several new projects will be implemented, including: prescribed burns to reduce thatch and improve forage quality; mowing of forage plots; application of fertilizer on forage plots; application of selenium, an essential nutrient for Columbian white-tailed deer, on forage plots; development of water sources for livestock; and construction of temporary fence around grazing units.

Ongoing projects include invasive species removal, a Columbian white-tailed deer GPS collar study in partnership with Oregon Department of Fish and Wildlife, spotlight surveys for Columbian white-tailed deer, maintenance of special status species plant populations, road mowing to reduce fire danger and improve access.

Location: Sections 31, 32, and 33, T. 25 S., R. 4 W., W.M.; Sections 35 and 36, T. 25 S., R. 5 W., W.M.; Sections 1, 2, 11, 12, 13, and 14, T. 26 S., R. 5 W., W.M. and Sections 4, 5, 6, 7, and 8, T. 26 S., R. 4 W., W.M.

Issue Identification: Completed.

Analysis: Completed – these activities are covered by the North Bank Habitat Management Area / ACEC Final EIS (September 2000)

Public Comment Period: Completed in September 2000.

Decision Date: September 2000.

Volunteer Opportunities

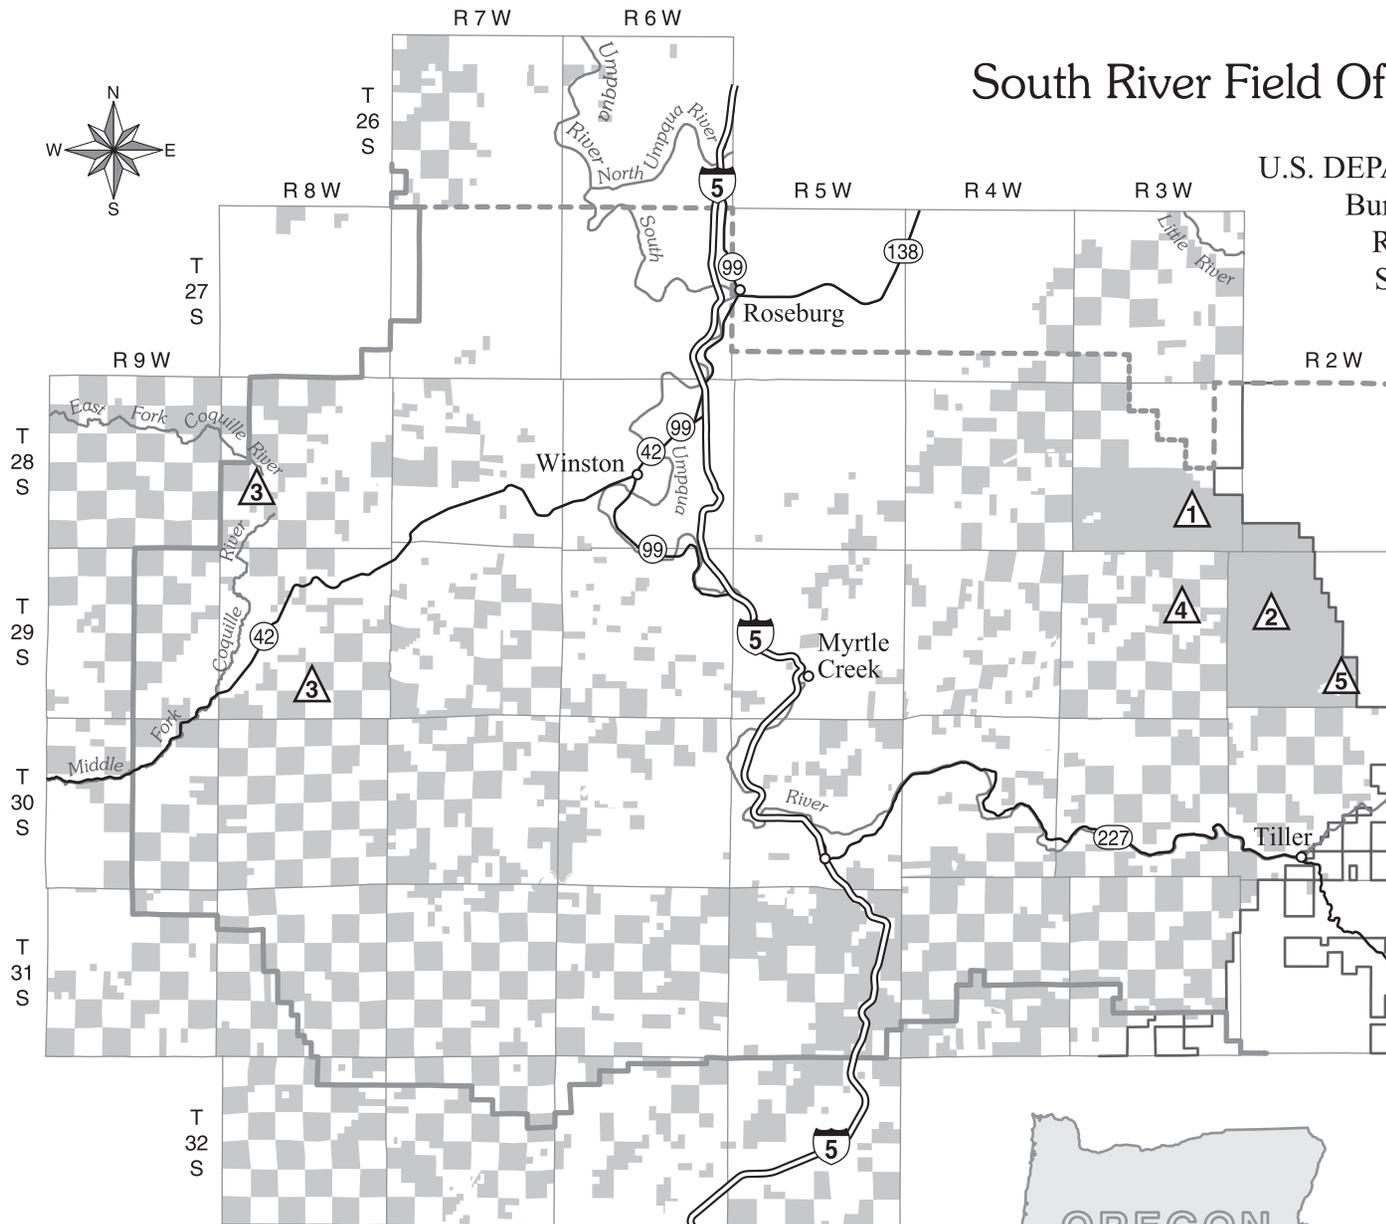

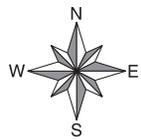

- **National Public Lands Day**-September 22-Meet at Island Day Use Area at 9:00 on September 22 for a clean-up of the Cow Creek Back Country Byway in partnership with Riddle High School and Days Creek Charter School. Bring work gloves, water, and sturdy shoes. Island Day Use Area is approximately seven miles west of Riddle along the Byway.
- **Eagle Scout projects**-past projects have included fence work, trail work, building and installing benches and railings, sign installation, and campground improvements.
- **Job shadows** are available for motivated high school students interested in natural resource management careers.
- **Campground Host**- one host position is open for the 2012/13 camping season. Full hookup site provided; restroom cleaning and campground upkeep included in job duties.
- **Self-directed volunteer projects** are available as well, depending on interests, experience level, and available staff time.

Contact ahiller@blm.gov or call 541.440-4930 regarding any of these volunteer opportunities on the Roseburg district. Thank you!

Abbreviations and Definitions

ACEC/RNA – Area of Critical Environmental Concern/Research Natural Area

BO - Biological Opinion.

CX or Categorical Exclusion - Actions which do not have significant effects on the environment and for which an Environmental Analysis (EA) or an Environmental Impact Statement (EIS) is not required.

EA - Environmental Assessment – This is a concise public document that briefly provides evidence and analysis of a proposed Federal action. It is used to determine whether further analysis needs to be done for an Environmental Impact Statement (EIS) or a Finding of No Significant Impact (FONSI).

ERFO – Emergency Relief for Federally Owned Roads

FONSI - Finding of No Significant Impact - This is a document that briefly presents the reasons why the implementation of an action will not result in “significant” environmental impacts (effects) beyond those already addressed in the Roseburg District’s *Proposed Resource Management Plan / Environmental Impact Statement* (PRMP/EIS, October 1994).

IDT - Interdisciplinary Team - A team is a group of resource specialists, whose participation is determined by the issues relating to the project proposal, and who conduct environmental analysis.

Matrix Lands – Comprised of Connectivity/Diversity Blocks and General Forest Management Area land use allocations. Most timber harvest contributing to the Allowable Sale Quantity takes place in this area. Approximately 19% of the Roseburg District BLM is matrix. (Land use allocation under the NWFP & 1995 ROD/RMP).

MBF - Thousand board feet.

MMBF - Million board feet.

NEPA - National Environmental Policy Act - A federal law which sets the systematic interdisciplinary analysis to achieve integrated consideration of physical, biological, economic, and other sciences to provide for an informed decision. The process provides for public participation in the development, review and revision of certain activities on Federal Lands.

NWFP - Northwest Forest Plan - A common name for the Record of Decision for Amendments to Forest Service and Bureau of Land Management Planning Documents Within the Range of the Northern Spotted Owl (April 1994). It is also used to refer to the Standards and Guidelines for Management of Habitat for Late-Successional and Old Growth Forest Related Species with the Range of the Northern Spotted Owl which accompanies the Record of Decision.

O&C Lands - Revested Oregon and California Railroad Lands.

Record of Decision and Resource Management Plan (ROD/RMP) - A land use plan prepared by the BLM in accordance with the Federal Land Policy and Management Act (FLPMA).

Scoping - An early and open part of environmental analysis that allows interested public and other Federal, state and local agencies the opportunity to provide issues, concerns and opportunities relative to proposed project actions. Scoping is required by regulation for Environmental Impact Statements.
