AN ENVIRONMENTAL ASSESSMENT was prepared for this sale, and a Finding of No Significant Impact has been documented. These documents are available for inspection as background for this sale at the Roseburg District Office.

THIS TIMBER SALE NOTICE does not constitute the decision document for purposes of protest and appeal of a forest management decision. Consistent with 43 CFR Subpart 5003-Administrative Remedies, the notice of a timber sale, when published as a legal ad in a newspaper of general circulation, shall constitute the decision document for purposes of protest and appeal.

The original Daydream Timber Sale notice of decision was released on August 15, 2017, followed by a 15-day protest period as required by 43 CFR § 5003.3. The doctrine of administrative finality precludes any further protest of the original Daydream timber sale. There have been no changes to the reoffered component of Daydream timber sale being offered for sale here. Consequently, there is no new protest opportunity, and this decision is effective immediately.

A PERFORMANCE BOND in an amount not less than twenty (20) percent of the total purchase price will be required for all contracts of \$2,500 or more, but the amount of the bond shall not be in excess of \$500,000, except when the Purchaser opts to increase the minimum bond as provided in 43 CFR 5451.2. A map showing the location of these sample trees is available at the Roseburg District Office. The volume of all Douglas-fir, Incense Cedar, and Ponderosa Pine trees in the 50" diameter class and larger and all Grand Fir have been determined by individual tree measurements using a 100% cruise.

With respect to merchantable trees of all species: the average tree is 17.9" D.B.H.O.B., the average log contains 84 bd. ft., the total gross volume is approximately 4,312 M bd. ft., and 80% recovery is expected.

DURATION OF CONTRACT will be 36 months for cutting and removal of timber. The contract contains SPECIAL PROVISIONS regarding: logging, environmental protection, road construction, road renovation, road use, road maintenance, fire prevention, slash disposal, safety, and log exporting. Log scaling may be required under the terms of this contract.

NOTES:

1. A revised Special Provision has been added to the contract which enables the Contracting Officer to suspend the contract to facilitate protection of certain plant or animal species, and/or to modify or terminate the contract when necessary to: (1) Comply with the Endangered Species Act or to prevent incidental take of northern spotted owls in accordance with the management direction in the Record of Decision (ROD) and Resource Management Plan (RMP), or; (2) Comply with a court order, or; (3) Protect species which were identified for protection through survey and manage and/or protection buffer standards and guidelines established in the ROD and RMP.

This contract provision limits the liability of the Government to the actual costs incurred by the Purchaser which have not been amortized by timber removed from the Contract Area.

2. This contract contains provisions for the sale and removal of additional timber necessary to facilitate safe and efficient Purchaser operations. It is estimated that approximately 7 MBF of such additional timber may be removed under the contract, but is not included in the advertised sale volume nor was it included in the timber sale appraisal. This estimate is a net figure reduced by the estimate of the volume of trees previously marked for cutting, which the Authorized Officer may elect to reserve.
3. Seasonal operating restrictions apply to this sale regarding road work, falling, bucking, yarding, loading, hauling, machine piling, sub-soiling and wildlife nesting seasons. Refer to Sections 42(A)(3-5), 42(A)(9)(b), 42(A)(10)(a), 42(B)(2), and Exhibit E for details.
4. Maintenance responsibility for a 1.6 mile portion (from the end of pavement to its junction with Road No. 29-5-25.0) of County Road 42 (Days Creek Cutoff Road) has not been established. If County Road 42 is not capable of supporting all-season log haul at the time of harvest of Daydream timber sale, a contract modification and equitable adjustment will be made to the Purchaser for renovation and maintenance of County Road 42. Maintenance / renovation activities would include surface grading and compacting, pulling ditches, roadside brushing, cleaning culverts, and placing 210 cubic yards of spot rock. This work is estimated to cost \$9,000, but will be re-assessed if conditions change at the time of modification.
5. License agreements with Douglas County and Lone Rock Timberlands Co. are required.
6. In the Thinning Areas as shown on Exhibit A, trees designated for cutting shall be manually felled, limbed and cut into log lengths not to exceed forty-two (42) feet before being yarded. In the Regeneration Harvest Areas as shown on Exhibit A, trees designated for cutting shall be yarded with limbs attached to the bole and the top attached to the top log, unless otherwise directed by the Authorized Officer. Refer to Sections 42(A)(10) and 42(A)(11).
7. Broadcast burning is required in a portion of Harvest Area No. 1, approximately 33 acres, as shown on Exhibit A. Refer to Section 42(F)(2) for details.
8. The Purchaser will have the option to assist in burning or to make a contribution to the Bureau of Land Management in lieu thereof. Refer to Sections 42(F) and 42(G) for details.
9. Sub-soiling of compacted skid trails and associated equipment/decking areas is required. Sub-soiling is to be completed once harvesting and machine piling operations are complete. Refer to Section 42(C)(4) for details.
10. Seasonal Restrictions Matrix is attached for informational purposes only.
