Marys Peak Restricted Areas				June 2015
Township	Range	Section(s)	Subdivision	Reason
14S	8W	31	All	Wildlife
14S	8W	32	W ¹ / ₂	Wildlife
14S	9W	13	S ¹ / ₂ SE ¹ / ₄	Missouri Bend Recreation Site
15S	8W	11	All	Wildlife

Note: All areas marked as wildlife have seasonal restrictions. If an activity is being planned in a wildlife area, consultation will occur with the area wildlife biologist. SFP collection is prohibited in all ACECs. If an activity is being planned adjacent to an ACEC, the management plan and/or area botanist will be consulted. Activities planned in or adjacent to recreation sites require consultation with the area recreation planner.

The following plants are restricted from harvest (Oregon Wildflower Law): Members of the genus: *Lilium*, *Calochortus*, *Fritillaria*, *Erythronium*, *Cypripedium*, *Calypso*, *Lewisia*, and *Douglasia*

A list the plants and wildlife that are restricted from SFP harvest may be found in the CX project file.

Appendix C: Special Forest Product Monitoring Form

Salem District Monitoring Form

Resource Area: _____

Contract #: _____ Date sold: _____

Product sold: _____

NEPA Compliance: Salem District Special Forest Products CX and/or _____

Monitoring questions:	YES	NO
Have the SFP Harvest Restrictions (CX # DOI-BLM-OR-S040-2014-0001 Appendices A, B) been reviewed prior to issuing this contract?		
Have the appropriate special provisions sheets been issued under this contract?		
Does the harvest of the special forest product involve power tools or mechanized machinery? (If yes, answer A & B below)		
A. Have the noise restrictions been met for special status species?		
B. Is this action considered a “take” under the USFWS Biological Opinion? If yes, how many remain for this product?		
Is the contract for a product which is considered to be a ground disturbing project? (If yes, answer A below)		
A. Has the appropriate botany and wildlife surveys been completed?		
Does the contract issued comply with the Salem District Resource Management Plan including the aquatic conservation strategies and Special Forest Products Handbook?		

Signature of the Authorized Officer below indicates that it is their professional judgment that the contract issued falls under the Salem District Special Forest Products CX or other previously prepared NEPA documentation and is not a risk for any additional impacts to resources sufficient to warrant further NEPA documentation or monitoring of this contract in the field.

Authorized Officer: _____

Date: _____

Appendix D: Special Forest Products NEPA Compliance Documentation

**Salem District
Special Forest Products
NEPA Compliance Documentation**

Resource Area: _____

Contract No: _____ **Product Sold:** _____

Location: T. _____ N/ S., R. _____ E/W., sec(s). _____ **Date:** _____

Land Use Allocation: GFMA Connectivity LSR Riparian Special Area

Project Conforms to the following Land Use Plan:

Salem District Record of Decision and Resource Management Plan (RMP) Approved May 1995

The proposed action is in conformance with the RMP because it is specifically provided for in the LUP decisions found in RMP pp. 49-50 (CX 14-0001 p. 2)

Project Complies with the Following NEPA Documents:

- Special Forest Products CX (CX# DOI-BLM-OR-S000-2014-0001-CX)
- Other NEPA document: _____ Date: _____

NEPA Adequacy Criteria:

The current action meets the categories described in CX 14-0001.

District staff has reviewed the current action, and none of the 12 extraordinary circumstances described in 43 CFR Part 46, Section 46.215 (CX 14-0001, Table 1) apply to the current action.

- Project effects are adequately covered by NEPA document. Specialist review is not necessary.
- Environmental effects do not exceed any analyzed in the above NEPA document, but project elements are not specifically analyzed in the above document. Changes in the project require specialist review and concurrence with the project design features.

Review Criteria derived from DNA Worksheet section D 1-5 (NEPA Handbook H-1790-1)	Y/N
1. The new proposed action is a feature of, or essentially similar to, an alternative analyzed in the existing NEPA document.	
2. The range of alternatives analyzed in the existing NEPA document(s) is appropriate with respect to the new proposed action, given current environmental concerns, interests, and resource values.	
3. The existing analysis is valid in light of any new information or circumstances. New information and new circumstances would not substantially change the analysis of the new proposed action.	
4. The direct, indirect, and cumulative effects that would result from implementation of the new proposed action are similar (both quantitatively and qualitatively) to those analyzed in the existing NEPA document.	
5. The public involvement and interagency review associated with existing NEPA document(s) are adequate for the current proposed action.	

Specialist Review and Concurrence: **None Required** or
