

**Bureau of Land Management
Salem District
Winter 2014 Project Update**

As the Nation's principal conservation agency, the Department of Interior has responsibility for most of our nationally owned public lands and natural resources. This includes fostering economic use of our land and water resources, protecting our fish and wildlife, preserving the environmental and cultural values of our national parks and historical places, and providing for the enjoyment of life through outdoor recreation. The Department assesses our energy and mineral resources and works to assure that their development is in the best interest of all people. The Department also has a major responsibility for American Indian reservation communities and for people who live in Island Territories under U.S. administration.

BUREAU OF LAND MANAGEMENT
Salem District Office
1717 Fabry Road S.E.
Salem, Oregon 97306
<http://www.or.blm.gov/salem/>

Dear Public Land User:

Welcome to the Winter 2014 edition of the Salem District's *Project Update*. The purpose of our publication is to provide you with information on proposed activities on lands administered by the Bureau of Land Management (BLM) within the Salem District. Your comments and concerns are welcome and may influence the final decision on these projects.

The BLM is continuing to make progress on the Resource Management Plans (RMPs) for Western Oregon plan revision.

- January/February 2013: The BLM held recreation workshops in Medford, Roseburg, Eugene and Portland.
- April 2013: The BLM released a Summary and Key Findings Report reflecting back what the public shared and the statistics from each meeting.
- May/June 2013: The RMP project manager, RMP tribal liaison, and Western Oregon district managers held listening sessions with the Confederated Tribes of Siletz Indians of Oregon, Confederated Tribes of the Grand Ronde, Cow Creek Band of the Umpqua Tribe of Indians, the Klamath Tribes, and the Coquille Indian Tribe.
- June 2013: The BLM shared the Purpose and Need statement with the public. The BLM also signed an ESA Consultation Agreement with the U.S. Fish and Wildlife Service and the National Marine Fisheries Service. This agreement establishes a cooperative process upon which the agencies will conduct Endangered Species Act (ESA) Section 7 consultation for the RMPs for Western Oregon.
- August 2013: The RMP planning team completed the Analysis of the Management Situation (AMS) for BLM managers. The AMS provides a snapshot of the current status of the resources affected by the plan as well as potential management opportunities. The document describes current conditions, trends and activities in the planning area while setting the basis for the no action alternative. The document was released in August 2013 via BLM's public website. The BLM distributed more than 150 hard copies.
- December 2013: The RMP planning team held community listening sessions in Corvallis, Medford, Coos Bay, and Roseburg. A summary report consolidating the input provided from the attendees was posted to the website and was shared with BLM managers and Interdisciplinary Team members.

In late 2013, the Interdisciplinary Team also worked on the Planning Criteria. The Planning Criteria document outlines Oregon/Washington State Director Jerry Perez's guidance on developing alternatives, describes legal mandates and four preliminary alternatives. The Planning Criteria also provides a detailed description of the analytical methodology that will be used in the planning process. The Planning Criteria is an important document in Western Oregon because it offers the public an in-depth look at how the BLM will be writing the Draft RMP/Draft Environmental Impact Statement (EIS). The distribution of the Planning Criteria will include a public comment period.

- March 2014: The RMP team plans to release the Planning Criteria document for public comment in March/April 2014, and will make available this document on the RMP Revision website. The Salem District will hold a public meeting to discuss the planning criteria in March.

The current goal is to have a Draft RMP/Draft EIS available in 2014 and a Proposed RMP/Final EIS in 2015.

All documents are available on the BLM's RMPs for Western Oregon website at:
<http://www.blm.gov/or/plans/rmpswesternoregon/plandocs.php>

Thank you for your continued interest!

Sincerely,

Kim M. Titus
Salem District Manager

Bureau of Land Management Salem District

- BLM Administered Lands
- US Forest Service Lands
- Resource Area Boundary

Tables 1-4 describe the planning status of current projects. Table 5 summarizes the status of fiscal year 2014 timber sales. New information is shown in **bold font**.

Projects started and completed between editions of this document have gone through the full analysis process. The public is notified of these projects through letters, newspaper legal notices and postings on the Salem District Internet website at: <http://www.blm.gov/or/districts/salem/plans/index.php>

Explanatory comments concerning Tables 1–4:

Projects are organized by project type, project name/description, location, planning status, and contact person. A project may include the following stages:

Developing Proposed Action – A site-specific proposal, called a proposed action, is developed to implement the objectives and direction in the Salem District Resource Management Plan.

Scoping – Public comment is sought on the proposed action. Comments are used to refine the proposal, or to identify issues which will define the scope of analysis and alternatives to be considered.

Developing Alternatives – A range of alternatives is developed based on the issues raised during scoping, while addressing the purpose and need for the project.

Environmental Effects – The effects of implementing the alternative(s) are described and documented in an EA (Environmental Assessment), CX (Categorical Exclusion), or DNA (Determination of NEPA Adequacy).

Comment Period – Comment periods are established commensurate with the anticipated level of public interest and typically provide 30 days for an EA, and FONSI (Finding of No Significant Impact). There are no established comment periods for a CX or DNA.

Please send written comments, including the specific project name, to the appropriate address listed below during the identified public comment period.

Abbreviations and Definitions

Adaptive Management Area (AMA): One of the federal land use allocations set forth in the Salem District Resource Management Plan. The objective of this land use allocation is to develop and test new management approaches to integrate and achieve ecological and economic health, and other social objectives.

Connectivity /Diversity Blocks (CON): One of the federal land use allocations set forth in the Salem District Resource Management Plan. The objective of this land use allocation is to maintain 25-30% of each block in late-successional forest at any point in time and schedule harvest on a 150 year rotation.

Categorical Exclusion (CX): A category of actions (identified in agency guidance) that do not have a significant effect on the human environment and for which neither an environmental assessment nor an environmental impact statement is required.

Determination of NEPA Adequacy (DNA): An interim step in the BLM's internal analysis process that concludes that a proposed action is adequately analyzed in an existing NEPA document (an EIS or EA). Where applicable, the determination also addresses conformance with an approved land use plan.

Decision Rationale or Decision Record (DR): The BLM decision document associated with an EA that describes the action to be taken when the analysis supports a finding of no significant impact.

Environmental Assessment (EA): A public document that provides sufficient evidence and analysis to determine whether or not a federal undertaking would significantly affect the environment. If the answer is no, the agency issues a finding of no significant impact (FONSI), otherwise the agency would prepare an Environmental Impact Statement (EIS).

Finding of No Significant Impact (FONSI): A finding that explains why an action will not have a significant effect on the environment and, therefore, an environmental impact statement will not be required.

General Forest Management Area (GFMA): One of the federal land use allocations set forth in the Salem District Resource Management Plan. The objectives of this land use allocation is to produce a sustainable supply of timber and other forest commodities while providing habitat for a variety of organisms associated with both late-successional and younger forests.

Late-Successional Reserves (LSR): One of the federal land use allocations set forth in the Salem District Resource Management Plan. The objective of this land use allocation is to maintain a functional, interactive, late-successional and old-growth forest ecosystem.

Land Use Allocation (LUA): A designation defining uses that are allowed, restricted, or prohibited for a particular area of land. Examples include the matrix, adaptive management area, riparian reserve and late-successional reserve land use allocations.

Matrix: One of the federal land use allocations set forth in the Salem District Resource Management Plan. The Matrix land use allocation consists of federal land outside of reserves and special management areas. These lands are available for timber harvest at varying levels. GFMA and Connectivity/Diversity blocks are within the Matrix land use allocation.

MBF: Thousand board feet.

National Environmental Policy Act (NEPA): A federal law that requires agencies to determine if their proposed actions have significant environmental effects. NEPA procedures must insure that environmental information is available to public officials and citizens before decisions are made and before actions are taken. The NEPA process provides an understanding of environmental consequences of the proposed actions to help public officials make decisions.

Riparian Reserves (RR): One of the federal land use allocations set forth in the Salem District Resource Management Plan. Lands within the Riparian Reserves are designated for restoring and maintaining the ecological health of watersheds and aquatic ecosystems and for providing habitat for terrestrial species.

SBA: Small Business Administration

Scoping: The process by which the BLM solicits input on potential issues and effects associated with proposed federal actions. Scoping is one form of public involvement in the NEPA process.

Thinning - Commercial Thinning/Density Management: Commercial thinning is the removal of merchantable trees from an even-aged stand to encourage growth of the remaining trees. Density Management is the cutting of trees for the primary purpose of widening their spacing so that growth of remaining trees can be accelerated. Density management harvest can also be used to improve forest health, to open the forest canopy, or to accelerate the attainment of old growth characteristics if maintenance or restoration of biological diversity is the objective. Specific objectives would vary by land use allocation.

Table 1: Cascades Resource Area Proposed Projects

<i>Name / Description of Project</i>	<i>Location</i>	<i>Planning Status</i>	<i>Contact</i>
Vegetation Management Actions			
<i>Evan's Mountain Thinning (DOI-BLM-OR-S040-2010-0006-EA):</i> The proposed action is to thin approximately 250 acres of 30-92 year old forest stands within the Matrix and Riparian Reserve LUA.	T.8S., R.3E., sections 24 & 25; T.8S., R.4E., sections 19, 29, & 30. Little North Santiam River Watershed, Marion County.	EA completed September 2013, DR completed January 2014.	David Simons (503) 375-5612
<i>Jungle Gem (DOI-BLM-OR-S040-2013-0005-CX):</i> This project proposes to thin approximately 70 acres of 70 year old forest stands within the Matrix and Riparian Reserve LUA.	T.8S., R.2E., section 1. Thomas Creek Watershed, Marion County.	Categorical Exclusion (CX) to be completed Fall 2014.	Bonnie Trefren (503) 315- 5908
<i>Mighty Moose Thinning (DOI-BLM-OR-S040-2012-0004-EA):</i> The project proposes to thin approximately 1,400 acres of 50-75 year old forest stands within Matrix, LSR and Riparian Reserve LUA.	T.12S., R.2E., sections 11, 12, 14, 21, & 29; T.12S., R.3E., sections 8, 9, 10, 15, 17, & 20. Quartzville Creek Watershed, Linn County.	EA to be completed Winter 2014.	David Simons (503) 375-5612
<i>Sunday Morning Belly Twister (DOI-BLM-OR-S040-2014-0001-EA):</i> This project proposes to thin approximately 1600 acres of 30-118 year old forest stands within the Matrix and Riparian Reserve LUA. Approximately 90% of the acres are less than 80 years old.	T.11S., R.1E., sections 1, 3, & 35; T.11S., R.2E., sections 5, 6, 7, & 8. Crabtree Creek and Thomas Creek Watersheds, Linn County.	Scoping	Keith Walton (503) 375-5676
<i>Thunderkat Timber Sale (DOI-BLM-OR-S040-2014-0002-EA):</i> This project proposes to harvest approximately 70 acres of 80-90 year forest stands within the Matrix and Riparian LUA.	T.10S., R.2E., section 5, Thomas Creek Watershed, Linn County.	Scoping	David Simons (503) 375-5612
Recreation Actions			
<i>Fishermen's Bend Recreation Site Special Recreation Area Management Plan (EA):</i> Develop a management plan for the recreation site.	T.9S., R.2E., sections 25 & 26.	Scoping	Traci Meredith (503) 315-5991
<i>Oxbow R&PP Lease Change (DOI-BLM-OR-S040-2013-0001-EA):</i> This project proposes to reroute road to allow access to campsites, install additional campsites, vault toilet alongside new road within an existing lease area.	Oxbow Regional Park T.1S., R.2E., section 11.	Scoping	Traci Meredith (503) 315-5991
Miscellaneous Land Use Requests			
<i>Brightwood Radio Tower Extension (EA):</i> This project is a proposal from the Oregon Department of Transportation to increase the height of an existing radio and telecommunications tower within the Mt. Hood Corridor for administrative and emergency communications.	T.2S., R.6E., section 14	Scoping	David Simons (503) 375-5612
<i>Process Requests (EA/CX/DNA):</i> For various land uses such as rights-of-way, tail-holds, and special use permits.	Cascades Resource Area-wide	Ongoing	Belle Smith (503) 315-5984
<i>State In-Lieu Land Ownership Change (EA):</i> Transfer ownership of 120 acres of the National System of Public Lands to the State of Oregon under the provisions of Memorandum of Understanding between the BLM and the State of Oregon.	T.13S., R.2E., section 24	EA to be completed Spring 2014.	Mike Mathews (503) 375-5711

Table 2: District-wide Proposed Projects

<i>Name / Description of Project</i>	<i>Location</i>	<i>Planning Status</i>	<i>Contact</i>
Vegetation Management Actions			
Vegetation Management EA: This project will consider expanding the number of herbicides available for treating invasive plants. Proposed Action is to use herbicides as one of several tools to treat invasive plants and to control unwanted vegetation along roadsides, right of ways, recreation areas, in restoration projects and at Horning Seed Orchard.	District-wide	In progress.	Claire Hibler (503) 375-5677

Table 3: Marys Peak Resource Area Proposed Projects

<i>Name / Description of Project</i>	<i>Location</i>	<i>Planning Status</i>	<i>Contact</i>
Vegetation Management Actions			
Briar Creek (DOI-BLM-OR-S050-2013-0001-CX): Density management and coarse woody debris creation on 53 acres of forest stands approximately 77-79 years old in the LSR and RR LUAs. Approximately 1,200 feet of temporary road will be constructed and decommissioned following harvest.	T14S., R.8W., section 32. Upper Alsea River Watershed, Benton County.	CX completed November 2013.	Stefanie Larew (503) 375-5601
Fall-Cole Early-Seral Enhancement (DOI-BLM-OR-S050-2012-0005-CX): Density management of three forest stands aged 37-46 years, totaling 61 acres, in LSR and RR LUA.	T.14S., R.7W., sections 27 & 34. Upper Alsea River Watershed, Benton County.	CX to be completed February 2014.	Stefanie Larew (503) 375-5601
Rainbow Ridge Timber Sale EA (DOI-BLM-OR-S050-2013-0002-EA): The project is in the early planning stages for forest management on approximately 150 acres. Variable retention harvest in the Matrix LUA and density management within the Matrix and RR LUAs.	T.14S., R.6W., section 29. Upper Alsea River and Marys River watershedS, Benton County.	EA to be completed in 2014.	Stefanie Larew (503) 375-5601
Rickreall Creek Watershed Enhancement (DOI-BLM-OR-S050-2010-0004-EA): Project 1 (Mid and Late-Seral Enhancement) areas are within approximately 1,200 acres of LSR, RR, and AMA. The project is a density management project, which would be implemented through six timber sales. Project 2 (Legacy Tree Release and CWD/Snag Creation) areas are within approximately 287 acres of LSR and RR areas. The project would include felling, girdling and topping of individual trees or creation of gaps (1/4 acre to one acre in size). Project 3 (Large Woody Debris Enhancement) would place large woody debris within the main-stem Rickreall Creek above Mercer Reservoir, the South Fork Rickreall Creek, and North Fork Rickreall Creek.	T.8S., R.7W., sections 3, 4, 5, 9 & 11; T.7S., R.6W., sections 22 & 31; T.8S., R.6W., sections 5 & 9; T.7S., R.7W., section 33. Rickreall Creek, Mill Creek, Salt Creek, and Luckiamute River Watersheds, Polk County.	EA completed February 2012. Project 1: FY 2014 - C-9 DR, Gilmore DR, Rick-Line DR. Project 2: DR to be completed in 2013. Project 3: DR completed May 2012.	Stefanie Larew (503) 375-5601

Table 3: Marys Peak Resource Area Proposed Projects

<i>Name / Description of Project</i>	<i>Location</i>	<i>Planning Status</i>	<i>Contact</i>
<p>South Yamhill River Watershed Enhancement EA (DOI-BLM-OR-S050-2013-0002-EA): Project 1, Density Management, would thin approximately 1,220 acres of 40-78 year old stands in the AMR and RR LUAs through six timber sales. Project 2, Legacy Tree Release and Coarse Woody Debris Creation, would include felling, girdling, and topping of individual trees or creation of gaps to release legacy trees from competition of densely stocked conifers and enhance coarse woody debris conditions.</p>	<p>Several sections of BLM-administered lands in T.7S., R.8W. and T.7S., R.7W. Agency Creek-South Yamhill River Watershed, Polk County.</p>	<p>EA to be completed in 2014.</p>	<p>Stefanie Larew (503) 375-5601</p>
<p>Thin Lindsey Late-Successional Reserve Enhancement (DOI-BLM-OR-S050-2013-0005-EA): The proposed project entails density management, coarse woody debris creation, and legacy tree release on approximately 205 acres on mid-seral forest stands in the Late-Successional Reserves and Riparian Reserves.</p>	<p>T.7S., R.9W., sections 17, 18, & 19. Lower Siletz River Watershed, Lincoln County.</p>	<p>EA to be completed in 2014. This timber sale will not be offered in fiscal year 2014.</p>	<p>Ron Exeter (503) 315-5963</p>
Miscellaneous Land Use Requests			
<p>Process Requests (EA/CX/DNA): For various land uses such as rights-of-way, tailholds, and special use permits.</p>	<p>Marys Peak Resource Area</p>	<p>Ongoing</p>	<p>Rich Hatfield (503) 315-5968</p>

Table 4: Tillamook Resource Area Proposed Projects

Name / Description of Project	Location	Planning Status	Contact
<i>Vegetation Management Actions</i>			
<p>East Fork Nehalem Projects (EA): The BLM is in the early stages of analyzing the effects of a proposal to harvest up to 2150 acres of 65 – 90 year old forest in the Matrix (GFMA and Connectivity) and Riparian Reserve land use allocations. Harvest method would include commercial thinning, variable spaced density management thinning, and regeneration harvest.</p>	<p>T.5N., R.3W., sections 31 & 33; T.4N., R.3W., sections 5, 17, 19, & 21. East Fork Nehalem Watershed, Columbia County.</p>	<p>EA scoping expected to begin February 2014</p>	<p>Andy Pampush (503) 815-1143</p>
<p>Walker Creek Projects (DOI-BLM-OR-S060-2011-0012-EA): The projects being considered include commercial thinning, underplanting, road stabilization and decommissioning, coarse woody debris creation, and meadow restoration. Lands are within the Adaptive Management Area, Late Successional Reserve, and Riparian Reserve land use allocations.</p>	<p>Nestucca River Watershed, Walker Creek and Bald Mtn. Fork drainages, Tillamook and Yamhill Counties.</p>	<p>EA to be completed Winter 2014</p>	<p>Andy Pampush (503) 815-1143</p>
<i>Transportation System Management Actions</i>			
<p>Nestucca Backcountry Byway Project (DOI-BLM-OR-S060-2014-0001-EA): The proposed project includes paving the 2.6 miles of the Nestucca Access Road that is currently gravel surfaced; this would involve some minor road realignment and subgrade widening to make it a double-lane road. The project would also involve replacing undersized and/or failing culverts along the Nestucca, Bible Creek, and Bald Mountain Access Roads; installing additional cross-drain culverts; installing a two-lane bridge at Elk Creek; chipsealing currently paved road segments; repainting fog lines and centerlines; repairing multiple road slump areas; constructing additional paved turnouts along Bible Creek and Bald Mountain Access Roads; managing roadside trees (primarily hardwoods); and installing traffic signs, informational signs and additional guard rails.</p>	<p>Nestucca River 5th field watershed</p>	<p>EA to be completed Spring 2014</p>	<p>Steve Bahe (503) 815-1123</p>
<i>Miscellaneous Land Use Requests</i>			
<p>PC-80 R&PP Lease (DOI-BLM-OR-S060-2013-0006-EA): The project being considered is to enter into a long term lease with the Pacific City Joint Water-Sanitary Authority (PCJWSA) for the use of approximately 75 acres of BLM land within the boundaries of the unincorporated city of Pacific City, Oregon. The PCJWSA would develop the area for recreation purposes such as trails and interpretive features, and tsunami evacuation purposes.</p>	<p>T.4S., R.10W., section 19.</p>	<p>EA to be completed Winter 2014.</p>	<p>Traci Meredith (503) 315-5991</p>
<p>Process Requests (EA/CX/DNA): For various land uses such as rights-of-way, tailholds, and special use permits.</p>	<p>Tillamook Resource Area-wide</p>	<p>Ongoing</p>	<p>Andy Pampush (503) 815-1143</p>
