PLAN CONFORMANCE

All actions approved or authorized by the BLM must conform to the existing land use plan where one exists (43 CFR 1610.5-3, 516 DM 11.9). Although it is not a NEPA requirement, the BLM includes within all its NEPA documents a statement about the conformance of the proposed action and alternatives with the existing land use plan. The BLM's planning regulations state that the term "conformity" or "conformance" means that "... a resource management action shall be specifically provided for in the plan, or if not specifically mentioned, shall be clearly consistent with the terms, conditions, and decisions of the approved plan or amendment" (43 CFR 1601.0-5(b)).

The proposed action is in conformance with the program-specific direction for realty management of the Baker Resource Management Plan (RMP), cited on page 23 of the RMP. The permit is not within a designated exclusion/avoidance area. Exclusion areas are: wilderness areas and wild river segments. Avoidance areas are Wilderness study area, ACECs, and scenic and recreation river segments.
