

RECORD OF PLAN CONFORMANCE AND CATEGORICAL EXCLUSION (CX) DETERMINATION

CX Log #: DOI-BLM-OR-V050-2015-048-CX

CE Exemption category: 516 DM 11.9, E.9: Renewals and assignments of leases, permits, or rights-of-way where no additional rights are conveyed beyond those granted by the original authorization.

BLM Office: Vale District Bureau of Land Management, 3100 H Street, Baker City, Oregon 97814
Phone #: 541-523-1256

BACKGROUND

Project Name: Idaho Power Company Renewal

Applicant: Idaho Power Company, PO Box 70, Boise, ID 83707

Location of Proposed Action:

Willamette Meridian, Baker County, Oregon

T. 10S., R. 39E., Section 27, Lots 1-3;

T. 10S., R. 39E., Section 28, SW $\frac{1}{4}$ NW $\frac{1}{4}$, SE $\frac{1}{4}$ NW $\frac{1}{4}$;

T. 10S., R. 39E., Section 28, Lot 1;

T. 10S., R. 39E., Section 29, SE $\frac{1}{4}$ NE $\frac{1}{4}$;

DESCRIPTION OF THE PROPOSED ACTION: On April 23, 2015, the Idaho Power Company submitted a request to renew their right-of-way for a 138 kV power line. This is a renewal for an existing service line known by the geographic name Quartz-John Day. The alignment has not been altered since the grant was originally issued in 1966.

PLAN CONFORMANCE

All actions approved or authorized by the BLM must conform to the existing land use plan where one exists (43 CFR 1610.5-3, 516 DM 11.9). Although it is not a NEPA requirement, the BLM includes within all its NEPA documents a statement about the conformance of the proposed action and alternatives with the existing land use plan. The BLM's planning regulations state that the term "conformity" or "conformance" means that "... a resource management action shall be specifically provided for in the plan, or if not specifically mentioned, shall be clearly consistent with the terms, conditions, and decisions of the approved plan or amendment" (43 CFR 1601.0-5(b)).

The proposed action is in conformance with the program-specific direction for realty management of the Baker Resource Management Plan (RMP), cited on page 23 of the RMP. The right of way is not within a designated exclusion/avoidance area. Exclusion areas are: wilderness areas and wild river segments. Avoidance areas are Wilderness Study Areas, ACECs and scenic and recreation river segments.

DOCUMENTATION OF CATEGORICAL EXCLUSIONS: EXTRAORDINARY CIRCUMSTANCES

This categorical exclusion is appropriate in this situation because there are no extraordinary circumstances potentially having effects that may significantly affect the environment. The proposed action has been reviewed and none of the circumstances described in 516 DM 2, Appendix 2, and listed below apply.

| Yes | No | Extraordinary Circumstances | Reviewer initials | Date |
|-----|----|---|-------------------|---------|
| | ✓ | 1. Have significant impacts on public health or safety. | Jus | 9/15/15 |
| | ✓ | 2. Have significant impacts on such natural resources and unique geographic characteristics as historic or cultural resources; park, recreation or refuge lands; wilderness areas; wild or scenic rivers; national natural landmarks; sole or principal drinking water aquifers; prime farmlands; wetlands (Executive Order 11990); floodplains (Executive Order 11988); national monuments; migratory birds; and other ecologically significant or critical areas. | Jus | 9/15/15 |
| | ✓ | 3. Have highly controversial environmental effects or involve unresolved conflicts concerning alternative uses of available resources [NEPA Section 102(2)(E)]. | Jus | 9/15/15 |
| | ✓ | 4. Have highly uncertain and potentially significant environmental effects or involve unique or unknown environmental risks. | Jus | 9/15/15 |
| | ✓ | 5. Establish a precedent for future action or represent a decision in principle about future actions with potentially significant environmental effects. | Jus | 9/15/15 |
| | ✓ | 6. Have a direct relationship to other actions with individually insignificant but cumulatively significant environmental effects. | Jus | 9/15/15 |
| | X | 7. Have significant impacts on properties listed, or eligible for listing, on the National Register of Historic Places as determined by either the bureau or office. | KEC | 9/10/15 |
| | X | 8. Have significant impacts on species listed, or proposed to be listed, on the List of Endangered or Threatened Species, or have significant impacts on designated Critical Habitat for these species. | MYP | 9/08/15 |
| | ✓ | 9. Violate a Federal law, or a State, local, or Tribal law or requirement imposed for the protection of the environment. | Jus | 9/15/15 |
| | ✓ | 10. Have a disproportionately high and adverse effect on low income or minority populations (Executive Order 12898). | Jus | 9/15/15 |
| | X | 11. Limit access to and ceremonial use of Indian sacred sites on Federal lands by Indian religious practitioners or significantly adversely affect the physical integrity of such sacred sites (Executive Order 13007). | KEC | 9/10/15 |
| | X | 12. Contribute to the introduction, continued existence, or spread of noxious weeds or non-native invasive species known to occur in the area or actions that may promote the introduction, growth, or expansion of the range of such species (Federal Noxious Weed Control Act and Executive Order 13112). | EM | 9/2/15 |

Exhibit A

OR-68503

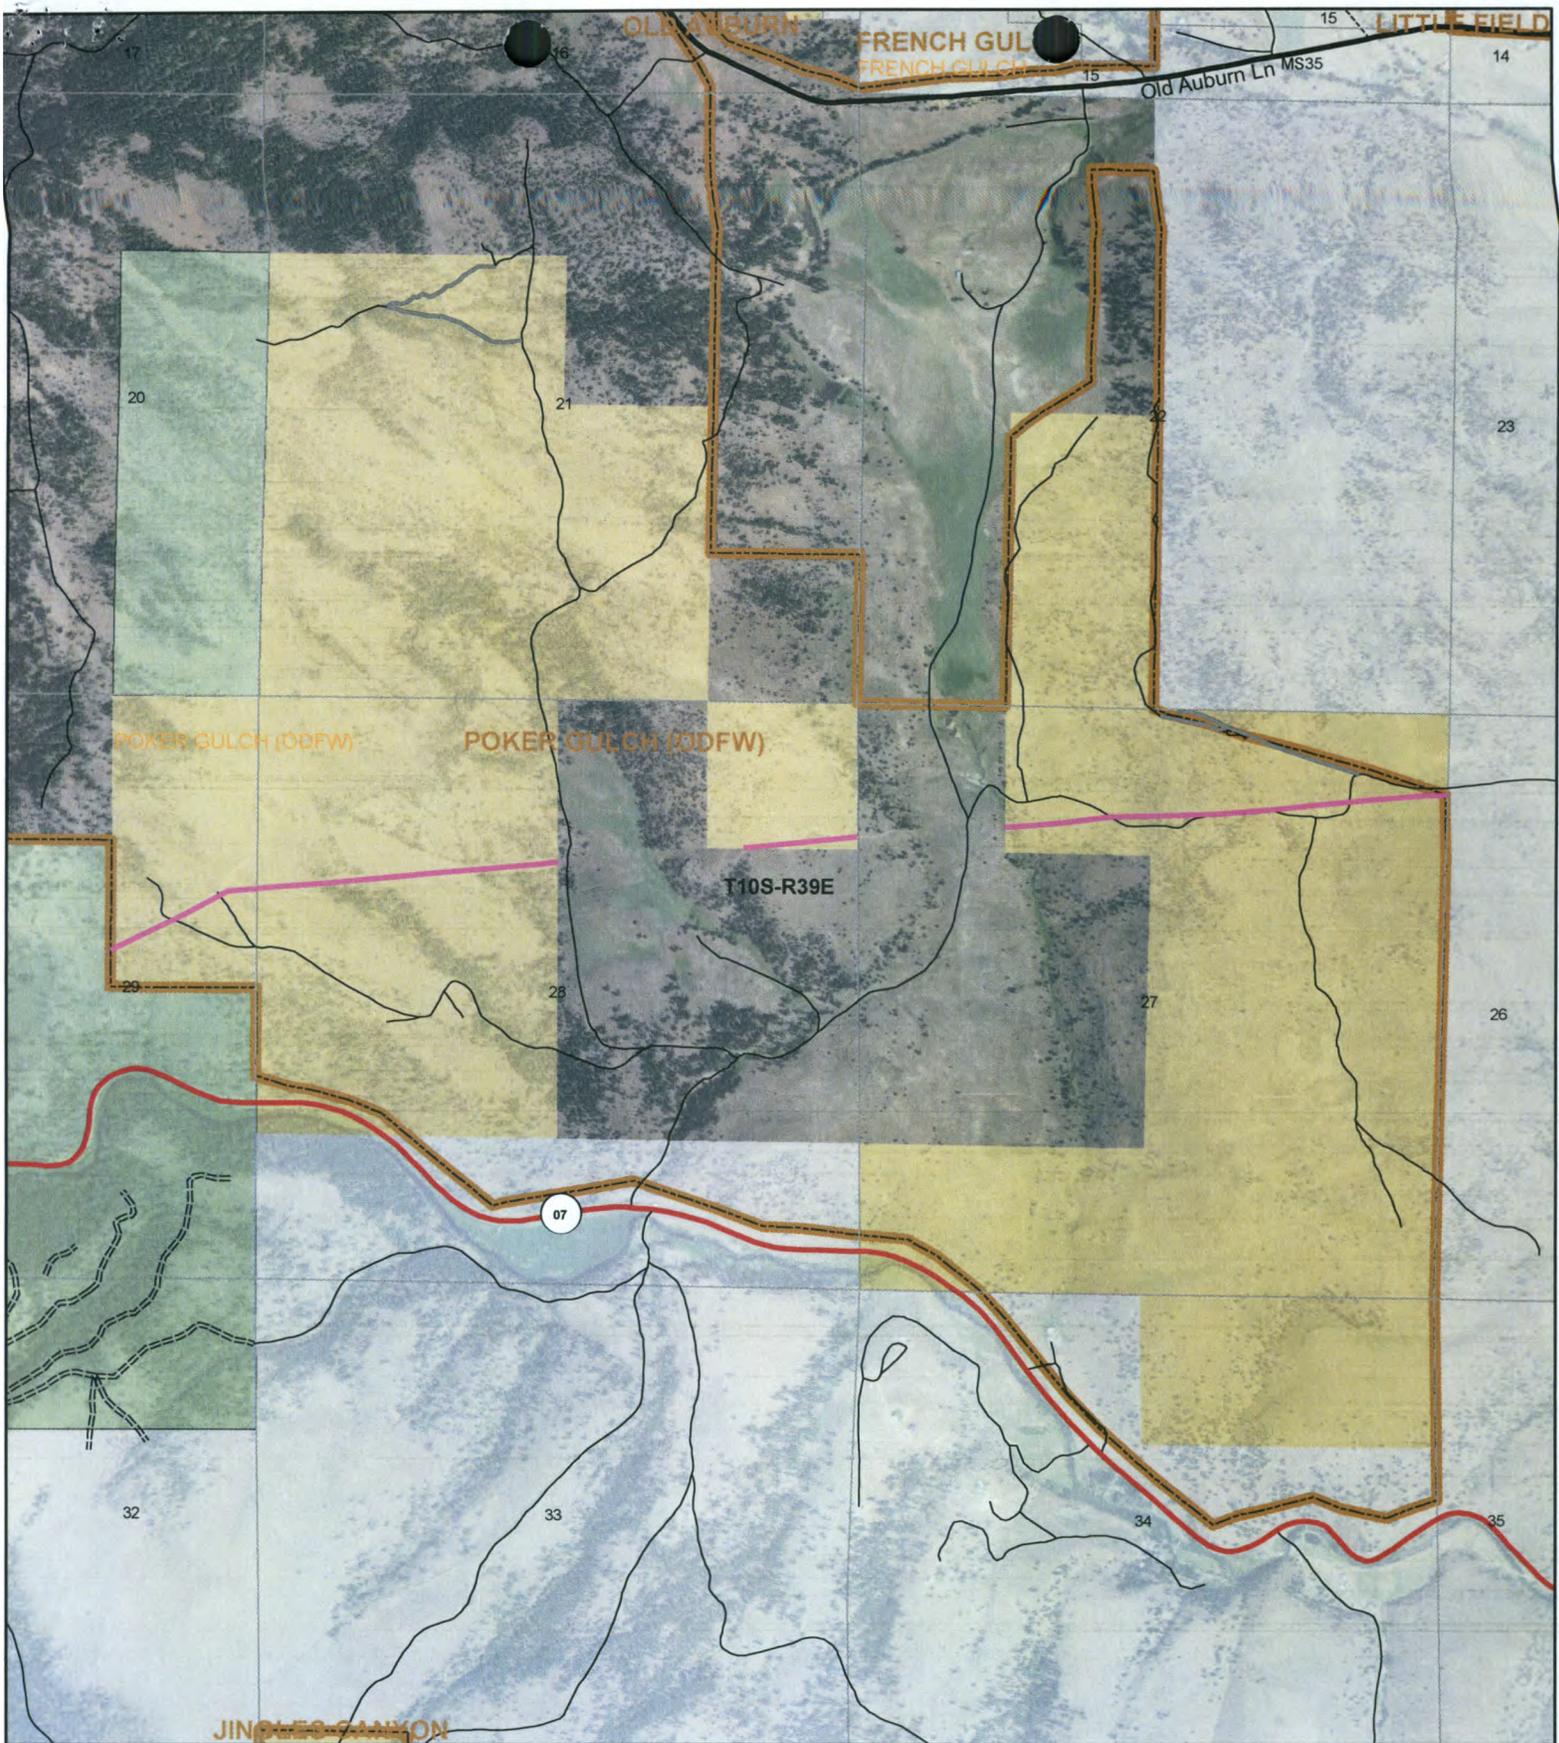

- a. This grant is issued subject to the holder's compliance with all applicable regulations contained in Title 43 Code of Federal Regulations part 2800.
- b. Upon grant termination by the authorized officer, all improvements (if applicable) shall be removed from the public lands within 90 days, or otherwise disposed of as provided in paragraph (4)(d) or as directed by the authorized officer.
- c. Unless otherwise agreed to by the authorized officer in writing, power lines shall be constructed in accordance to standards outlined in "Suggested Practices for Avian Protection on Power Lines," Raptor Research Foundation, Inc. 2006. The holder shall assume the burden and expense of proving that pole designs not shown in the above publication are "avian safe." Such proof shall be provided by an avian expert approved by the authorized officer. The BLM reserves the right to require modifications or additions to all power line structures placed on this right-of-way, should they be necessary to ensure the safety of large perching birds. Such modifications and/or additions shall be made by the holder without liability or expense to the United States.
- d. No reconstruction or maintenance activities shall be performed during periods when the soil is too wet to adequately support construction equipment. If such equipment creates ruts in excess of 3 inches deep, the soil shall be deemed too wet to adequately support construction equipment.
- e. Maintenance related traffic to and from work sites shall be restricted to existing roads and trails as much as possible. If "cross country" or travel along the right-of-way is necessary, no blading or access road construction is permitted.
- f. The holder shall be responsible for weed control on disturbed areas within the limits of the right-of-way. The holder is responsible for consultation and coordination with the BLM Weed Coordinator and/or local authorities for acceptable weed control methods and products prior to implementing weed treatments. Use of all herbicides shall comply with applicable Federal and State laws and the Label. Equipment should be cleaned before entering work site and upon leaving the worksite to reduce the spread of noxious weeds.
- g. Any cultural and/or paleontological resource (historic or prehistoric site or object, or fossil) discovered by the holder, or any persons working on his behalf on public or Federal land shall be immediately reported to the authorized officer. Holder shall suspend all operations in the immediate area of such discovery until written authorization to proceed is issued by the authorized officer. An evaluation of the discovery will be made by the authorized officer to determine appropriate actions to prevent the loss of significant cultural or scientific values. The holder will be responsible for the cost of evaluation and mitigation, and any decision as to proper avoidance, protection or mitigation measures will be made by the authorized officer after consulting with the holder and others under Section 106 of the National Historic Preservation Act.
- h. Pursuant to 43 CFR 10.4(g), the holder of this authorization must immediately notify the

authorized officer, by telephone, with written confirmation, immediately upon the discovery of human remains, funerary items, sacred objects, or objects of cultural patrimony. Further, pursuant to 43 CFR 10.4 (c) and (d), the holder must stop activities in the vicinity of the discovery and protect it for 30 days or until notified to proceed by the authorized officer. The BLM Authorized Officer will determine avoidance, protection or mitigation measures in consultation with the Holder, Oregon SHPO, and affected Tribes. Costs associated with the discovery, evaluation, protection or mitigation of the discovery shall be the responsibility of the holder.

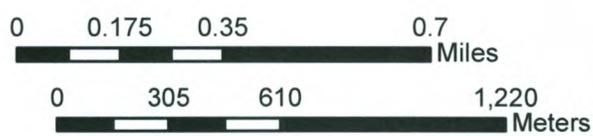

- i. The holder shall notify the Authorized Officer at least **30 days** prior to any non-emergency activities that would cause surface disturbance in the right-of-way. The Authorized Officer will determine if a cultural resource inventory, treatment or mitigation is required for the activity. The holder will be responsible for the cost of inventory, avoidance, treatment or mitigation; including any maintenance-caused damage. The Authorized Officer will determine avoidance, treatment and mitigation measures that are necessary after consulting with the holder and under Section 106 of the National Historic Preservation Act.
- j. The holder shall not initiate any construction or other surface disturbing activities (including non-emergency operations or maintenance activities) on the right-of-way without the prior written authorization of the authorized officer. Such authorization shall be a written notice to proceed issued by the authorized officer. Any notice to proceed shall authorize construction or use only as therein expressly stated and only for the particular location or use therein described.
- k. The holder shall protect all survey monuments found within the right-of-way. Survey monuments include, but are not limited to, General Land Office and Bureau of Land Management Cadastral Survey Corners, reference corners, witness points, U.S. Coastal and Geodetic benchmarks and triangulation stations, military control monuments, and recognizable civil (both public and private) survey monuments. In the event of obliteration or disturbance of any of the above, the holder shall immediately report the incident, in writing, to the authorized officer and the respective installing authority if known. Where General Land Office or Bureau of Land Management right-of-way monuments or references are obliterated during operations, the holder shall secure the services of a registered land surveyor or a Bureau cadastral surveyor to restore the disturbed monuments and references using surveying procedures found in the Manual of Surveying Instructions of the Survey of the Public Lands of the United States, latest edition. The holder shall record such survey in the appropriate county and send a copy to the authorized officer. If the Bureau cadastral surveyors or other Federal surveyors are used to restore the disturbed survey monument, the holder shall be responsible for the survey cost.
- l. The holder agrees to indemnify the United States against any liability arising from the release of any hazardous substance or hazardous waste (as these terms are defined in the Comprehensive Environmental Response, Compensation and Liability Act of 1980, (43 U.S.C. 9601, et seq. or the Resource Conservation and Recovery Act of 1976, 42 U.S.C. 6901, et seq.) on the right-of-way (unless the release or threatened release is wholly unrelated to the right-of-way holder's activity on the right-of-way). This agreement applies without regard to whether a release is caused by the holder, its agent, or unrelated third parties.
- m. The holder shall conduct all activities associated with the construction, operations, and termination

of the right-of-way within the authorized limits of the right-of-way.

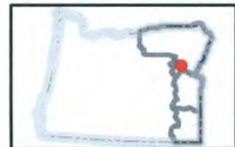

- n. The holder shall take such measures for prevention and suppression of fire on the grant area and adjacent public lands or public lands used or traversed by the holder in connection with operations as are required by applicable laws and regulations.
- o. The authorized officer reserves the right to grant additional rights-of-way or permits for compatible use on, over, under, or adjacent to the land involved in this grant.
- p. Ninety days prior to termination of the right-of-way, the holder shall contact the authorized officer to arrange a joint inspection of the right-of-way. This inspection will be held to agree to an acceptable termination (and rehabilitation) plan. This plan shall include, but is not limited to, removal of facilities, drainage structures, or surface material, recontouring, topsoiling, or seeding. The authorized officer must approve the plan in writing prior to the holder's commencement of any termination activities.
- q. Excess soil excavated for power poles shall be evenly spread within the right-of-way and in the immediate vicinity of the pole structure.
- r. The holder shall recontour disturbed areas, or designated sections of the right-of-way, by grading to restore the site to approximately the original contour of the ground as determined by the authorized officer.
- s. Construction holes left open overnight shall be covered. Covers shall be secured in place and shall be strong enough to prevent livestock or wildlife from falling through and into the hole.
