Proposed Action: Transfer of grazing preference from Freeman to DeBenedetti

Project Leader: Bill Reimers

Compliance with NEPA

The Proposed Action is categorically excluded from further documentation under the National Environmental Policy Act (NEPA) in accordance with 516 DM 11.9 D. Rangeland Management 1. Approval of transfers of grazing preference.

This categorical exclusion is appropriate in this situation because there are no extraordinary circumstances potentially having effects that may significantly affect the environment. The proposed action has been reviewed, and none of the extraordinary circumstances described in 516 DM2 apply. The approval of transfer of grazing preference is an administrative action that documents a real estate transaction has occurred.

Decision Record

Based on the enclosed Categorical Exclusion Documentation, DOI-BLM-OR-V060-2014-031CX, I have determined that the proposed action to transfer the grazing preference from Tim and Michelle Freeman to Chalyse Edgar-DeBenedetti involves no significant impacts to the human environment and requires no further environmental analysis. It is my decision to authorize this action as proposed.
