From: Deputy State Director for Resource Planning, Use and Protection

Subject: Aviation Program Overview for Line Managers

On January 27, 2003, there will be a training session for line managers who utilize aircraft to accomplish Bureau goals. According to Fire and Aviation Management (OR-934) records, most of the line managers in Oregon and Washington attended this training last year and are current on this requirement. This particular class will be provided for those who have not attended in the past three years.

The training is mandatory for those line managers who have not had this training in the past three years or who have not attended Aviation Management Training for Supervisors in the same time period.

The class will be held from 2:00 - 4:00 p.m. in the State Director's Conference Room. The class will be limited to fifteen. If you plan to attend, please sign up for this session at the Interagency Aviation Training web site http://iat.nifc.gov/Training/Class_Detail.asp?id=679. If you have not already established a profile on this site, you will be required to establish a profile prior to registering for the class.

Please contact Clay Hillin at 503-808-6593 if you have any questions.

Districts with Unions are reminded to notify their unions of this Information Bulletin and satisfy any bargaining obligations before implementation. Your servicing Human Resources Office or Labor Relations Specialist can provide you assistance in this matter.
