Subject: Interagency Special Status/Sensitive Species Program FY05 Accomplishments

In FY04 we made the decision to create a common, jointly staffed OR/WA Bureau of Land Management and Forest Service Region 6 Special Status/Sensitive Species Program (ISSSSP). The goal of this program responds well to our vision for Service First by identifying ways for improving coordination and integration; increasing efficiency and effectiveness; and more strategically directing agency resources and funding.

During this first year, the Program staff has focused their efforts on identifying program needs and priorities; developing range-wide tools to assist field level effects evaluations; and developing a proposed Interagency List Criteria for Special Status and Sensitive Species. Attached is a summary of program accomplishments for FY05. If you have questions or need additional information, please contact the interagency staff: Rob Huff, Conservation Planning Coordinator (503-808-6479), Kelli VanNorman, Inventory Coordinator (503-808-6606), or Carol Hughes, SSSSP Assistant (503-808-2661).
