

DESIGNATED WILDERNESS SPATIAL DATA STANDARD

COMMENT RESOLUTION

12/31/2008

COMMENT	PROPOSAL	ACTION TAKEN
WLD_NO should be renamed to CASEFILE	Many datasets will use an attribute to carry the casefile (serial number) related to the spatial object. Making this more generic will allow it to be re-used in other datasets.	Comment accepted. WLD_NO changed to CASEFILE (Casefile_Number).
