Subject: Wilderness Spatial Data Standard

This Information Bulletin (IB) announces the availability of a newly revised Oregon/Washington (OR/WA) spatial data standard for Designated Wilderness (Attachment 1). The data standard defines how this type of data is to be captured in a Geographic Information System (GIS) geodatabase, defines attributes used, and defines coding schemes (domains). This data standard is to be followed for all Designated Wilderness geospatial data. To see the full Designated Wilderness data standard, go to:

http://www.blm.gov/or/datamanagement/files/Wilderness_Spatial_Data_Standard.pdf

This IB supersedes Instruction Memorandum IM-OR-2012-008. The changes are minor corrections to the text and were approved by the State Data Administrator

Any questions or comments about this standard can be directed to Jerry Magee, State Data Steward for Wilderness, at 503-808-6086; Erin Frostad, GIS Technical Lead, at 503-808-6524; or Pamela Keller, acting OR/WA State Data Administrator, at 503-808-6009.

Districts with Unions are reminded to notify their unions of this IB and satisfy any bargaining obligations before implementation. Your servicing Human Resources Office or Labor Relations Specialist can provide you with assistance in this matter.
