

may limit the length of presentations. At previous meetings, presentations have been limited to three minutes in length. Speakers should address the specific wild horse and burro-related topics listed on the agenda. Speakers must submit a written copy of their statement to the address listed in the **ADDRESSES** section or bring a written copy to the meeting.

Participation in the Advisory Board meeting is not a prerequisite for submission of written comments. The BLM invites written comments from all interested parties. Your written comments should be specific and explain the reason for any recommendation. The BLM appreciates any and all comments, but those most useful and likely to influence decisions on management and protection of wild horses and burros are those that are either supported by quantitative information or studies or those that include citations to and analysis of applicable laws and regulations. Except for comments provided in electronic format, speakers should submit two copies of their written comments where feasible. The BLM will not necessarily consider comments received after the time indicated under the **DATES** section or at locations other than that listed in the **ADDRESSES** section.

In the event there is a request under the Freedom of Information Act (FOIA) for a copy of your comments, the BLM will make them available in their entirety, including your name and address. Before including your address, phone number, e-mail address, or other personal identifying information in your comment, you should be aware that your entire comment—including your personal identifying information—may be made publicly available at any time. While you can ask us in your comment to withhold your personal identifying information from public review, we cannot guarantee that we will be able to do so. The BLM will release all submissions from organizations or businesses, and from individuals identifying themselves as representatives or officials of organizations or businesses, in their entirety, including names and addresses.

Sec. 13, Lot 9.

In accordance with 43 CFR 2711.3-3(a) (5), direct sale procedures are appropriate to resolve inadvertent unauthorized use or occupancy of the land. Corral facilities, a barn and a shed encroach on public land. These improvements were constructed by the proponent over fifty years ago.

Federal law requires that public land may be sold only to either (1) Citizens of the United States 18 years of age or older; (2) corporations subject to the laws of any State or of the United States; (3) other entities such as an association or a partnership capable of holding land or an interest therein under the laws of the State within which the land is located; or (4) a State, State instrumentality or political subdivision authorized to hold property. Certifications and evidence to this effect will be required of the purchaser prior to issuance of a patent.

The following rights, reservations, and conditions will be included in the patents that may be issued as to each of the above described parcels of land:

1. A reservation to the United States for a right-of-way for ditches and canals constructed by the authority of the United States. Act of August 30, 1890 (43 U.S.C. 945).

2. A reservation to the United States for all oil, gas and geothermal resources in the land in accordance with Section 209 of the Federal Land Policy and Management Act of 1976 (43 U.S.C. 1719).

3. The patent will include a notice and indemnification statement under

the Comprehensive Environmental Response, Compensation and Liability Act. All parcels are subject to the requirements of section 120(h) (42 U.S.C. Section 9620) holding the United States harmless from any release of hazardous materials that may have occurred as a result of the unauthorized use of the property by other parties. No Warranty of any kind, express or implied, is given by the United States as to the title, physical condition or potential uses of the parcel of land proposed for sale.

4. All the parcels are subject to valid existing rights.

The mineral interests being offered for conveyance have no known mineral value. A successful bid constitutes an application for conveyance of the mineral interest. In addition to the full purchase price, a nonrefundable filing fee of \$50 will be required by the successful bidder for purchase of the mineral interests to be conveyed simultaneously with the sale of the land with the exception of all leasable minerals, including oil, gas and geothermal interests, which will be reserved to the United States in accordance with Section 209 of the Federal Land Policy and Management Act of 1976 (43 U.S.C. 1719).

On February 3, 2009, the above described lands will be segregated from appropriation under the public land laws, including the mining laws, except the sale provisions of the Federal Land Policy and Management Act of 1976 (43 U.S.C. 1719). Until completion of the sales, the Bureau of Land Management is no longer accepting land use applications affecting the identified public lands, except applications for the amendment of previously filed right-of-way applications or existing authorizations to increase the term of existing grants in accordance with 43 CFR 2807.15 and 2886.15. The effect of segregation will terminate upon issuance of a patent, upon publication in the **Federal Register** of a termination of the segregation, or March 3, 2011, unless extended by the Bureau of Land Management, State Director, in accordance with 43 CFR 2711.1-2(d) prior to the termination date.

Based upon receipt of valid bids, the Bureau of Land Management will offer the adjacent landowner the right to meet the highest bid and purchase the lands at an amount equal to the highest bid price, which must be not less than the market value as determined by the Secretary. If the adjacent landowner declines this offer, the bidder with the highest sealed bid price will be declared the high bidder. The outside of the bid envelope must be clearly marked with either "BLM Land Sale Parcel I—OR—61509" or "BLM Land Sale Parcel II—OR—62015," and contain a statement showing the total amount of the bid, the bid opening date and the name, mailing address, and phone number of the entity making the bid. Bids must not be less than the appraised market value. Each sealed bid shall be accompanied by a certified check, postal money order, bank draft, or cashier's check made payable to the DOI-Bureau of Land Management, for not less than 20 percent of the amount of the bid. The successful bidder shall submit the remainder of the full bid price prior to the expiration of 180 days from the date of the sale. The successful bidder may exercise the option to pay in full at any time during this period. Failure to submit the full bid price, prior to the 180th day following the sale shall result in cancellation of the sale and the deposit shall be forfeited.

Public Comments: On or before *March 20, 2009*, any person may submit written comments regarding the proposed sales to the Bureau of Land Management Klamath Falls Resource Area Office, 2795 Anderson Ave., Building #25, Klamath Falls, Oregon 97603.

The Bureau of Land Management will honor requests for confidentiality on a case-by-case basis to the extent allowed by law. The Bureau of Land Management will make available for public inspection in their entirety all submissions from organizations or businesses, and from individuals identifying themselves as representatives or officials of organizations or businesses.
