Dear folks at the BLM,

I am an avid mountain biker and hiker and supporter of the BLM's efforts. I am passionate about our lands and natural resources. A successful plan would include more trails that are open and available to mountain biking and NON-motorized users. Mountain biking is a growing activity that has low impact on trails and forests, particularly when trails are designed for it. It also helps support and grow rural economies. Thank you for all your hard work!
