Comments:

I'm writing in regards to the Row River Trail we have here in Cottage Grove. Since losing our strong timber industry we are focusing on rebuilding our economy through tourism. Cottage Grove has done a lot to improve our community and is still in the process of bringing new business and people to our town. The Row River Trail is one of our main focuses along with our upcoming Bohemia Park which is near the trail head. What BLM has provided in helping to keep our trail open and clean has been very much appreciated. I'm asking for you to continue providing trail upkeep and perhaps partnering with our local high schools and service clubs to share the task. Cottage Grove is being referred to as "Cycle City" this is due all in part of this wonderful trail with a great history. Thank you for your time and for this opportunity to be a voice.
