

**Resource Management Plans for Western Oregon
BLM Needs Your Feedback – Comment Form**

What would a successful plan look like to you?

Less government interference. Would be more of the public to volunteer.

What kind of management should BLM do more/less of?

Less management.

What is the appropriate geographic scale and scope of the plan?

Downsize.

What new or innovative ideas should BLM consider in this planning process?

More public input.

In regards to the resources BLM manages:

- **What is the appropriate mix of old, mid-aged, and young forests on BLM lands and how should these forests be managed?**

Sell land to the public. It would be managed better.

- **How should BLM provided habitat for fish and wildlife and contribute to the recovery of Endangered Species Act listed species?**

Do away with the E.S.A. Let nature take its course.

- **How should BLM manage forests to protect property and ensure our forests are fire resilient?**

Let the public have more on hands.

- **How should BLM-administered lands be managed to contribute to clean water and safe drinking water?**

Stay out of the way. The public will handle it.

- **How should BLM manage for recreation in western Oregon?**

Let each county take care of it.

- **How can BLM lands contribute to local economies and support local communities?**

Turn BLM lands over to each county they are in.

How interested are you in working with others to develop a management alternative?

- Very**
- Somewhat**
- Not at all**

How would you like to hear from us? (Check all that apply)
