Comments:

We would like to see more mandates about motorized vehicles not tearing up the land and more signage about obeying--No Trespassing. The gun fire at all hours day and night, four wheelers driving into driveways, leaving broken bottles, empty carriages and house trash all over, in general is disconcerting. Discovering just used fire pits left unattended during fire season is also disconcerting. Trying to take a peaceful walk in the wilds with one's dog is dangerous with bullets flying. All in all, we would like to see more provisions for \"nature friendly\" use of the land, especially since we are paying for use of roads to our land which,we are trying to preserve as nature friendly and fire safe. Thank you.
