Comments:

Thank you for wanting our views on how to best use and benefit from the use of this amazing nature that surrounds us! I am fortunate to live with BLM land as my neighbor. I have and ride horses and my wishes is for all of us horse people. I and my horses are really scared with all this shooting going on.Sometimes it sounds like a cannon going off.What is that? Also motorized vehicles in the woods just isn't natural,specially to the horses who are programed for flight.This unfortunately makes it very dangerous to go for a trail ride.You never know when you are going into some shooting area or meet some motocross bikes careening full blast through the woods.Very scary situations in my thinking (I have already been to the emergency room with broken ribs and punctured lung) So I don't feel safe on BLM land specially if im on a horse.It seems to me that nature should be kept natural to be truly enjoyed and beneficial for us humans! Thank you for listening...Sincerely Margareta your neighbor
