Comments:

It would be nice to see more logging on BLM lands. This would help drive down the log cost to our mills and allow them to make a profit a lot easier. This would in turn encourage mills to hire more employees, whom would be paying taxes and this would help finance projects and help our schools. The money that BLM would be getting would also help our schools and we would not have to depend on congress to replace the money that we should already be getting, before the spotted owl stopped most logging.

Also BLM needs to make a designated OHV riding area in the Roseburg area. We have to travel almost 80 miles in any direction to get any legal riding in that is worth going to. Almost all the major communittees in the state have some kind of riding area close by except for us. We pay OHV fees and do not have a place to ride.

Also don't close down any logging roads. Its already hard enough to find good places to take a kid hunting. At least when there are roads close by with clear cuts you don't have to worry about them getting lost as mush. If roads are closed down this would cram more hunters into less places to hunt and would make for a bad hunting experience. This could also cause more accidental shootings.

Thanks for a chance to comment
