

Resource Management Plans for Western Oregon BLM Needs Your Feedback – Comment Form

What would a successful plan look like to you?

Stop Logging on Federal land.

What kind of management should BLM do more/less of?

More preservation of forests/less logging.

What is the appropriate geographic scale and scope of the plan?

All Federal Forests land. Tourism is the # 1 industry in Oregon. No one wants to see a clean cut.

What new or innovative ideas should BLM consider in this planning process?

Planning for The future – to preserve & protect our natural resources so that our children and grandchildren can have clean air & water & forests.

In regards to the resources BLM manages:

- **What is the appropriate mix of old, mid-aged, and young forests on BLM lands and how should these forests be managed?**

Nature, if left alone, creates the perfect mix.

- **How should BLM provided habitat for fish and wildlife and contribute to the recovery of Endangered Species Act listed species?**

By letting the trees grow.

- **How should BLM manage forests to protect property and ensure our forests are fire resilient?**

Old growth is more fire resistant.

- **How should BLM-administered lands be managed to contribute to clean water and safe drinking water?**

No spray, not cutting trees.

- **How should BLM manage for recreation in western Oregon?**

Hand built paths.

- **How can BLM lands contribute to local economies and support local communities?**

By using hand labor to plant & cultivate & eradicate invasive species – would create lots of jobs also. Tax the land as the rest is.

How interested are you in working with others to develop a management alternative?

Comments:

I believe that we are kept at odds with one another through issues such as this. We are all concerned with our quality of life now & in the future. We all have the same needs – clean water, nature, food. We must find ways to be unified – that people would not be dependent on destroying this for the food on the table. There should be other ways to live.
