Dear Sirs,

I am strongly opposed to WOPR, as I'm sure 95 % OF ALL Oregonians are. There are all sorts of excellent reasons (e.g. global warming, endangered species) to NEVER cut or clearcut our magnificent old growth forests and no justification whatsoever (other than greed) for a plan that includes old growth. For me, the bottom line is this: do we choose short-sighted, short-term greed or actually begin to think and live with SUSTAINABILITY being the chief guideline? These forests are irreplaceable! WOPR alternative 2 is a criminal plan. I expect you to do everything in your power to represent the interest of Oregon and all those who inhabit this special part of the earth and stop this plan ASAP. Incidentally, I just saw an amazing documentary film by T.S. Bennett called "What A Way To Go." It should be mandatory viewing for everyone, and especially legislators. It is very insightful and truthful in its view of the really big picture of the problems humans now face, which seem insurmountable. But, we have to make a stand for sustainable living, and this is a good place to start. Thank you for your efforts.

Sincerely,

Steve Schweitzer, Ph.D.
