Dear BLM Folks,

I am writing to express my objection to the new Western Oregon Plan Revision "Preferred Alternative." I don't want the remaining old growth jeopardized. We have precious little left and it should be left as a heritage for the future as well as being important today in sustaining that ecosystem in which many plants and animals depend.

More logging roads would be needed in the preferred alternative which would be deleterious to the area.

I would like you to adhere to the Northwest Forest Plan and go with the "No Action Alternative."

Sincerely,

Shirley B. Froyd
