To Whom It May Concern:

Please stop plans for clear cutting Oregon old growth forests and respect the terms of the Northwest Forest Plan.

Please:

- Protect all mature and old-growth forests from clear cutting;
- Continue to protect threatened and endangered species such as the marbled murrelet and the Northern spotted owl
- Promote forest restoration rather than intensive industrial logging. Develop sustainable forestry rather than clear cutting;
- Protect trout, salmon and clean water by shielding watersheds, rivers and streams from sedimentation and temperature changes.

Thank you,

Max Ritchie
