Western Oregon Plan Revision
P.O. Box 2965
Portland, Oregon 97208

Dear Sirs:

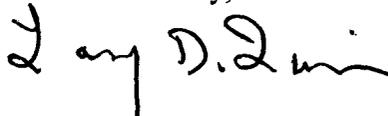

The Draft Environmental Impact Statement for BLM's Western Oregon Plan Revision (WORP) indicates significant degradation of the North Umpqua River and its watershed. Specifically; riparian protection areas would decrease; siltation would increase; et. al.

Proposed changes would degrade the Outstanding Remarkable Values on the North Umpqua River's Recreational River segment of the Wild and Scenic River System.

I own property and live along the banks of the North Umpqua. I paid a premium price for my land and property. Any diminution of the North Umpqua River will adversely affect the value of my property. Consequently, I or my heirs, will necessarily seek financial recompense for any losses.

I urge you to protect the North Umpqua River and the forests surrounding it.

Yours truly,

Larry D. Quinn
