To all Government parties this contains to
(WOPR) – OHV Emphasis Areas

It has been brought to our attention that the BLM office is planning to develop and off the road Vehicle Emphasis and WOPR to our area. We strongly disagree with this development in our area.

We bought our retirement home last year on Thompson Creek Rd. in Selma with the intent to get away from the city life and to enjoy the county life. We have 16 acre that back up to hundreds of areas for BLM land and enjoy that we can take hikes around the area to see wild live and nature that's not been disturbed

To have the BLM come in a log down any if not all for the trees in the area and then not replacing them and open this land up to off road vehicle is unheard of. We thought BLM Government was to keep this and all lands as it is for now and forever.

If these proposals were to go through what guarantee can BLM give us that this will not bring our home values down and have off road vehicles coming into our property and destroy our land (**none**). Not to say that this will bring a high fire danger in the summer, environmental impact to the area and disturbing the wild life and there habitat.

We're not against public open areas for off road activity and logging just not in our backyard or Josephine County

We will not stand by and let this happen to the County with out a fight. We will continue to write to you and let you know that we strongly disapprove of this plan.

Thank you for taking the time out to read our concerns and hope to hear back from you.
