No on WOPR

Dear BLM Planners:

I am a Medford resident who wonders why changes must be made to the Northwest Forest Plan. I thought that plan was acceptable to most of the differing interests and points of view on the forest.

I am a hiker, and am strongly opposed to using OUR tax money to build new roads on OUR properties (Forest Service and BLM) that bring over use to the areas that are attractive because they are remote.

People see Oregon as forest land where they can ski and hike and fish and hunt. Why spoil it with more motor vehicles?

I'm not naive; I realize the bottom line is money. But remember whose money you are spending, and that we as voters decide who will have the final say on the budgets that will either preserve or destroy OUR forests.

Yours truly,

Joan Carroll
