Support Letter Timber Mountain / Johns Peak Recreation Area

I support The Motorcycle Riders Association with their efforts to manage and improve the Timber Mountain / Johns Peak Recreation Area for the perpetual benefit of the recreating public.

I support M.R.A efforts to acquire and consolidate land ownerships to help simplify the management actions necessary to improve the area, to keep them undeveloped and to keep them available to the general public for Multiple Use Recreation, in perpetuity.

Finally, I support prompt completion of the delayed Environmental Impact Statement currently under way by Medford District Bureau of Land Management to allow for further area improvements, maintenance and enforcement.
