My comments,

The WOPR is ridiculous . You probably think so too. I realize the current administration may cause you to do things you probably don't really believe in. I have spoken to many of you personally and you really don't seem like uncaring folks. You are just doing your jobs.

I recommend you rethink all this, do the right thing, and stall all this until we get a president who gives a damn about the environment or anyone else besides big corporations.

SO STOP THE WOPR NOW!!!!!!!!!!!!!!!
