RE: WOPR DEIS

Because I am still snowbound (as well as having had flu over the weekend), I am unable to participate in today's rally at Medford's BLM office --- but I wish to reemphasize my enormous concerns about BLM's preferred alternative -- most especially with regard to the areas that would be opened up to that most loathsome of beasts, the OHV/ATV/ORV. The noise pollution and soil erosion that would result -- not to mention lowering of property values - must not be allowed.

Sincerely,

Terry Cain
