#### PUBLIC COMMENT REGARDING THE WESTERN OREGON PLAN REVISIONS AND THE JOHN DAY BASIN RESOURCE MANAGEMENT PLAN

#### I SUPPORT THE NO ACTION ALTERNATIVE FOR THIS PLANNING PROCESS

Let this serve as my personal request and public comment regarding The Western Oregon Plan Revisions and The John Day Basin Resource Management Plan. I am a member of the public with deep concerns for my public lands. I wish to participate in these planning processes from beginning to end.

It is not in the best interest of the public to be locked out of thousands of acres of public land or to have our public lands closed to off highway vehicle use.

During the planning process for The Western Oregon Plan Revisions and The John Day Basin Resource Management Plan I hereby request that the Bureau Of Land Management provide legal access for the public to all public lands administered by the Bureau Of Land Management and I hereby request that all public lands remain open for off highway vehicle use. I would be firmly opposed if any access roads or trails are gated or closed, if any public lands are closed to off highway vehicle use or closed to the public, if additional restrictions are placed on the public land user or if additional restrictions are placed on any public lands that are utilized by the public or administered by the Bureau Of Land Management. Furthermore, I support and agree with the public comments and the actions set forth by The Friends Of Rudio Mountain, Incorporated in their efforts to keep our public lands open for recreational use.

I firmly support the No Action Alternative for the above referenced planning processes. I request that this statement be included in the Public Comment File for The Western Oregon Plan Revisions and The John Day Basin Resource Management Plan and that it be made available for public review in its entirety.
