ECOS

The Ecology Center of the Siskiyou is asking for your help in preventing the Western Oregon Plan Revision. *These are two important focus points of the WOPR.*

*It defeats the purpose of the riparian buffer, essentially eliminating crucial habitat for Species that are already at risk.

*It will reduce most of our remaining stands of Old Growth. By signing below, we are saying NO! to the WOPR!!!

ECOLOGY CENTER OF THE SISKIYOU (ECOS)

Southern Oregon University
1250 Siskiyou Blvd.
Ashland, OR 97520
