Revising the BLM's Resource Management Plans in Western Oregon

RECEIVED

OCT 22 2007

TO BLM

Yes, I agree with Alternative #2
 It achieves habitat for endangered species,
 protection of streams for fish etc. & keeps a steady
 forest products industry going. Wood is
 renewable and in Oregon we grow trees.
 We (Oregon) is best in the world at growing
 trees. We need to utilize this magnificent
 resource. I hope the Alternative #2 goes
 through & is ok'd by courts to stop
 all the litigation that a small voice
 in our community uses effectively. If they
 don't like the idea of utilizing our
 natural resource (trees) then ~~to~~ move to
 Mid west and don't have to worry about
 cutting trees.

Finally it looks like Alternative #2 helps our
 community get healthy again.

Continue on reverse
