

NEW RIVER ACEC SUMMER EVENTS

Dragonflies & Damselflies of New River

Saturday, June 29 (10 am – 12 pm)

Ron Lyons (OR Entomological Society) will show examples of various species and help you learn when and where to look for these ancient creatures and understand behavior you may see. Learn how Ron captures photos of these insects and find opportunities for citizen science. A hike to Muddy Lake will follow. Binoculars recommended.

Small Mammal Search

Saturday, July 13 (10 am – 12 pm)

Bring the whole family to join New River's naturalist, Grace Larsen (BLM), for a hands on exploration about Oregon's small mammals. Travel through various habitats searching for these little creatures' signs and learn about the role they play in the environment.

Birding New River

Saturday, July 20 (10 am – 12 pm)

Join Joe Metzler (US Fish & Wildlife Service) on a hike through diverse habitats in search of birds found at New River this time of year. Learn the fascinating sounds & signs provided by local & migrant birds. Binoculars recommended.

Owls of Oregon

Friday, July 26 (7 pm – 8:30 pm)

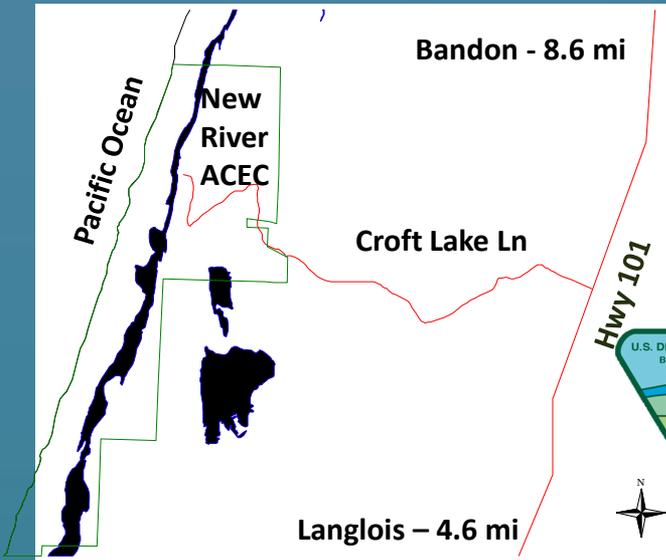

Owls are known for distinct calls & silent, nocturnal flight. Join Alicia Ward (BLM) to discover more unique features of local owls, how she uses recorded calls to locate them, & hopefully catch a glimpse or hear a hoot yourself.

The New River Nature Center

is open Saturdays & Sundays from 10 am - 3pm, or on request by calling 541 347 9330. New River lands are open daily from sunrise to sunset. New River is located between Bandon and Langlois, west of Hwy 101.

All programs are free & open to the public. Space is limited at all events. To reserve a space or for more information, contact the Bureau of Land Management at 541 756 0100.

**More events coming in
August & September!**
