The Molalla River Recreation Area provides riparian habitat for species unique to the lower west slope of the Cascade Mountains. The area is home to many terrestrial and aquatic species, and provides habitat for a number of threatened fish and bird species.

Riparian habitats adjacent to rivers and streams offer particularly high quality habitat for numerous species and allow for wildlife viewing opportunities. The Molalla River Trail System is an extensive network of more than 20 miles of trails for hikers, bicyclists and equestrians. The system combines both single track trails and old forest roads. The trails wind through the forested foothills and slopes of the Molalla River Valley, occasionally offering scenic glimpses of the forests and mountains of the Cascade Range. The system offers a variety of difficulty levels for a wide range of mountain biking, hiking and horseback riding enthusiasts. Trails are suitable for all skill levels and are a great way to explore the area.

The best equestrian access to the trail system is from Hardy Creek or Annie's Cabin Trailheads where there is ample parking for horse trailers. Mountain bikers and hikers may prefer to access the trail system via Amanda's, Americorp, and Sandquist’s Trailheads.

The nearest phone is located 4 miles north of the Recreation Area, at Dickey Prairie Store.

**Partners in Management**

- Bureau of Land Management: The Bureau of Land Management is responsible for some of the most beautiful landscapes in the West, including forests and rangelands, beaches and mountains across more than 15 million acres in Oregon and Washington. These Public Lands include more than 800 miles of wild and scenic rivers, hundreds of camping, hiking, fishing and hunting opportunities and a landscape of varied and ecosystems for you to simply go explore.

- Molalla RiverWatch: Molalla RiverWatch is a non-profit organization created in 1992 by a group of local citizens for the purpose of protecting, preserving and restoring the flora, fauna and water quality of the Molalla River and its tributaries. Molalla RiverWatch is committed to promoting respect and understanding of the Molalla River watershed through education and conservation for present and future generations.

**When Using the Trails**

**Be aware of other users:** Trails receive heavy use (especially during the summer). Be ready to meet others on the trail.

**Ride under control** and be able to stop within your sight distance.

**Yield to other users:** Mountain bikers yield to all other trail traffic. Hikers yield to horse riders.

**Avoid using single track trails** during wet conditions and obey all trail closure signs to help limit trail damage.

**Stay on established trails** in order to preserve vegetation and wildlife habitat. Do not cut switchbacks.

**Pack it in - Pack it out:** Trash receptacles or services are not provided. Be aware of other users: Trails receive heavy use (especially during the summer). Be ready to meet others on the trail.

**Restroom facilities on the trail system:** Keep human body waste at least 200 feet from the river and 50 feet from trails. When possible dig a hole at least 6 inches deep. Please cover any trace of human body waste. Several restroom facilities are located throughout the Molalla River Recreation Area and can be found at the following locations: Hardy Creek Trailhead, Ivor Davies Wayside, and Turner Bridge.

**Fires allowed on the trail system:** Fires are only permitted at designated campsites along the river with provided metal fire rings.

**Do not trespass on private land:** The trail system is bordered by private forest land—please stay on BLM land.

**Shooting:** The Molalla River Area is a high use recreation area and therefore shooting is NOT permitted anywhere along the river.

**Leave No Trace**

**Plan ahead and prepare:** Remember a map and compass; prepare for the weather and emergencies.

**Manage waste:** Pack out all trash; bring a small trash bag for the trail; inspect rest areas for any trash before leaving; cover and disguise any areas of human waste; keep human waste regulated distances from trails and water.

**Preserve the past:** Examine, but do not touch, cultural or historic structures and artifacts; leave rocks, plants and other natural objects as you find them; avoid introducing or transporting non-native species.

**Do not approach wildlife:** Observe wildlife from a distance. Do not follow or approach or feed animals feeding wildlife damages their health, alters natural behaviors, and exposes them to predators and other dangers.
